

Vertical profiles by Division (A/B/C)

Vertical profiles by 11-cluster

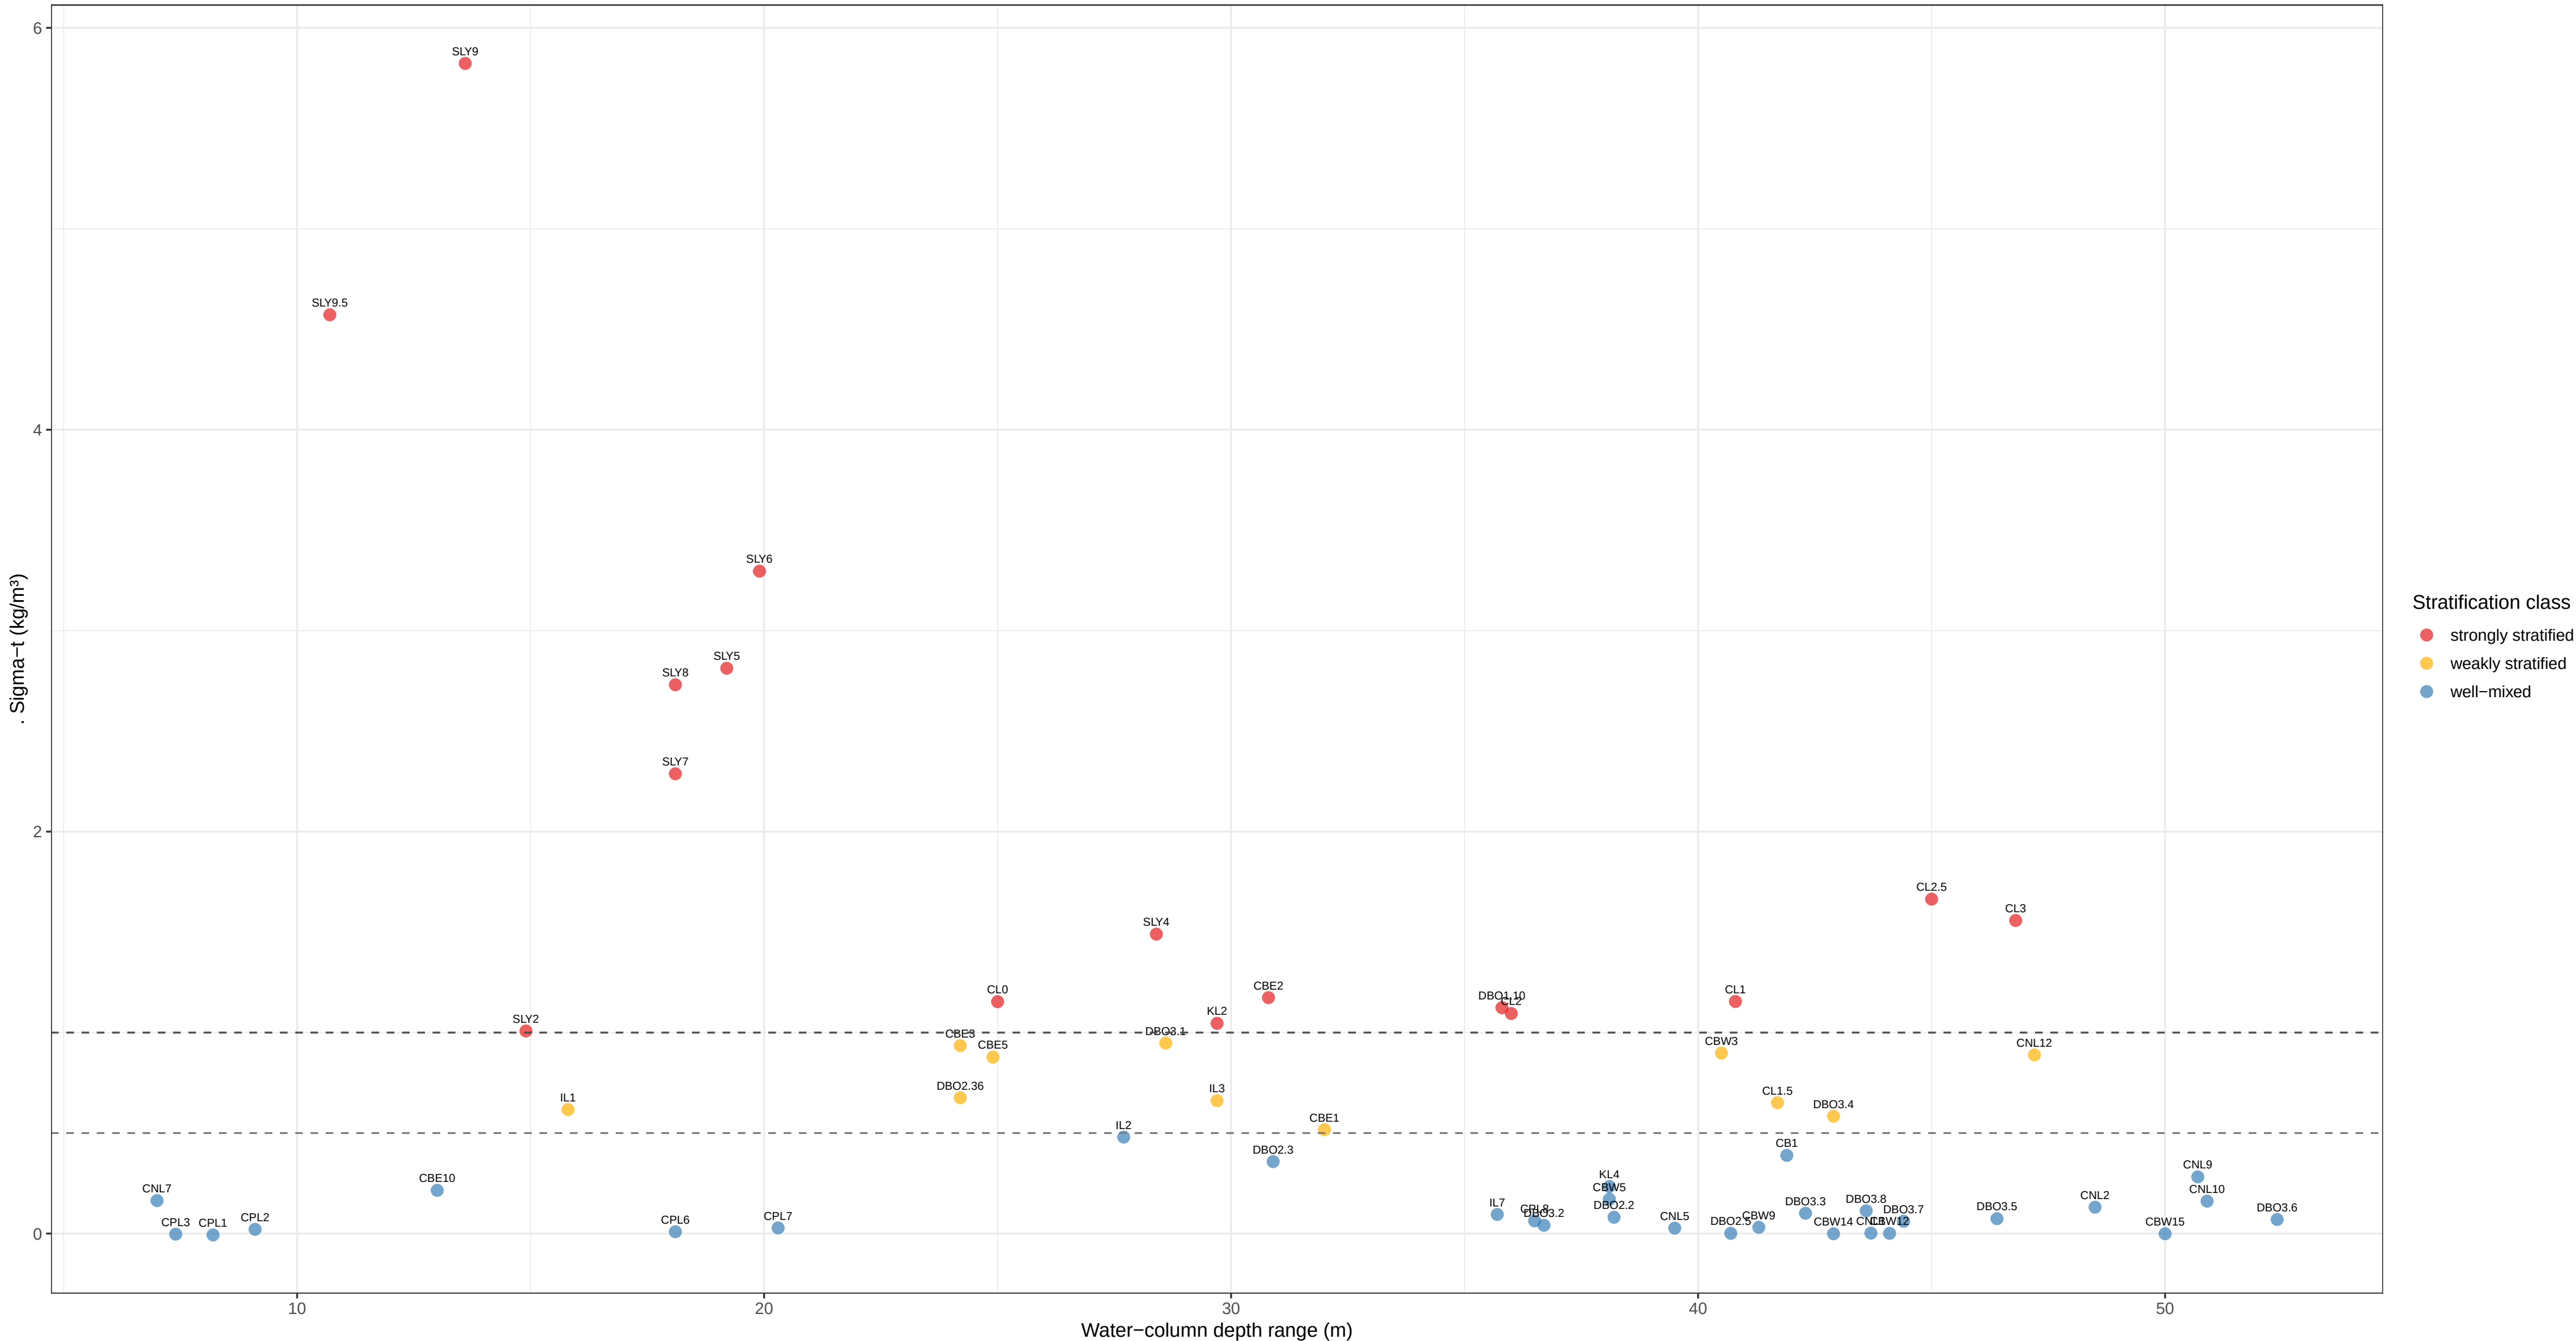

Per-station vertical profiles by transect region

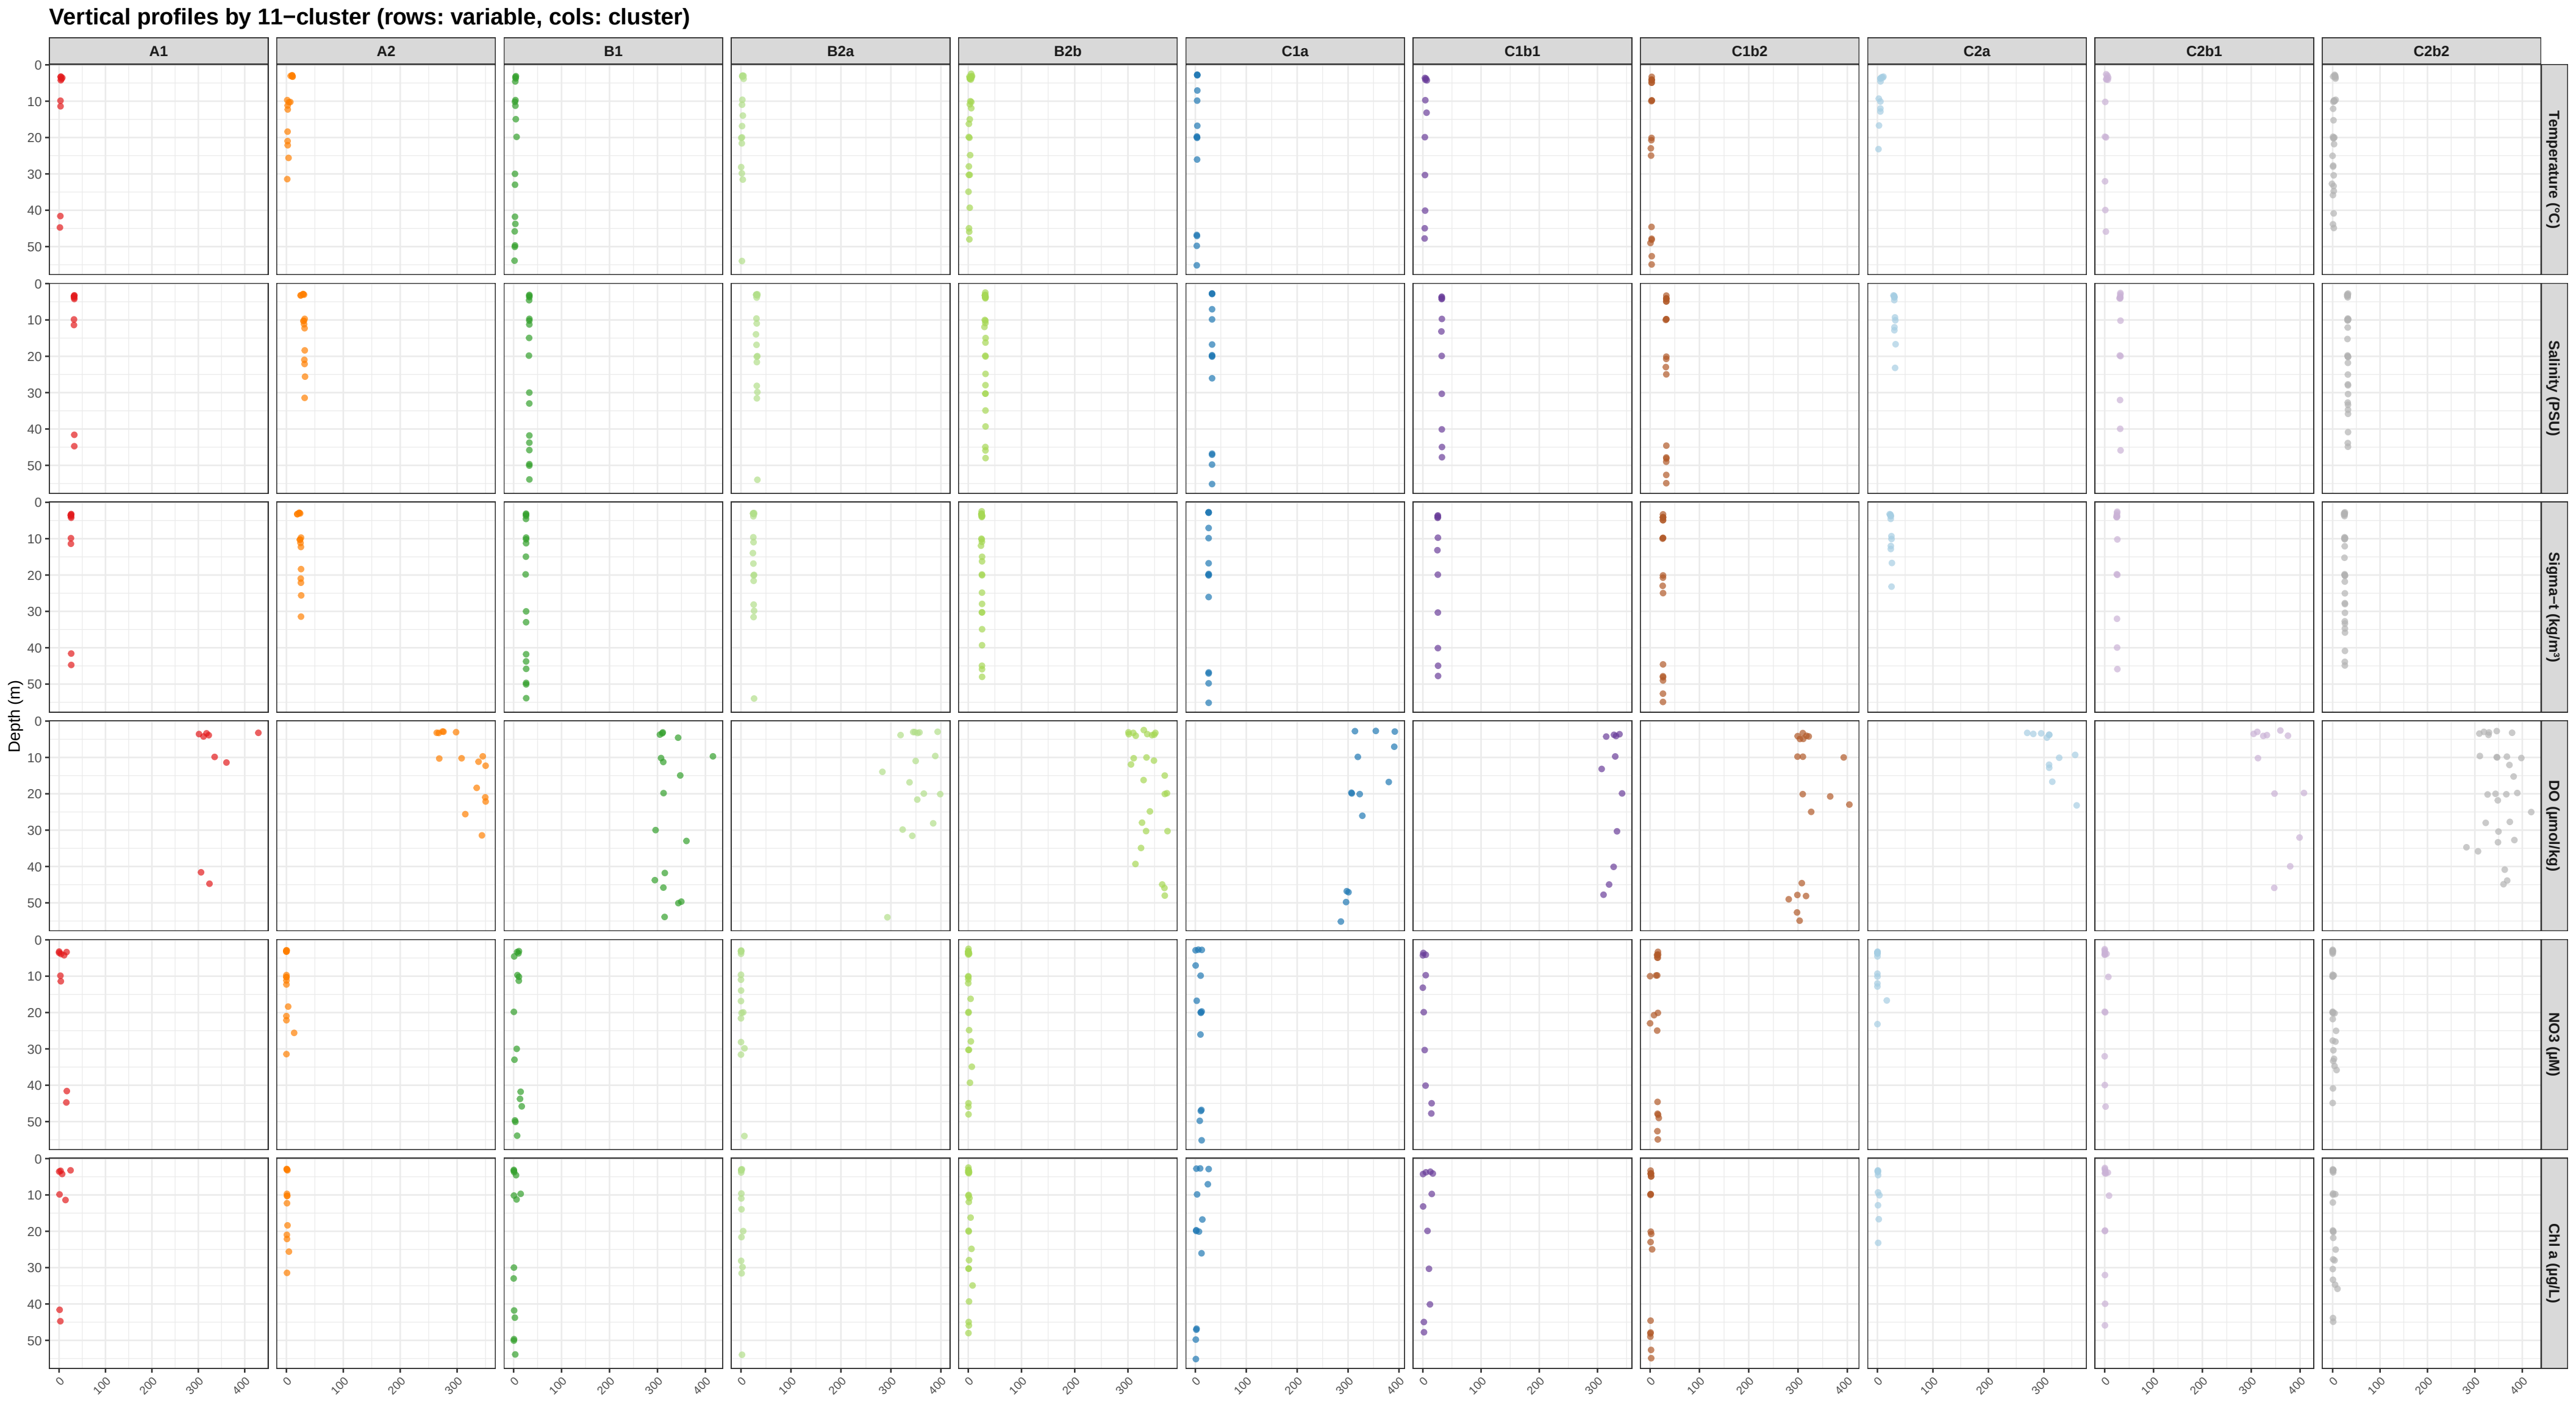

Stratification index per station (. sigma-t = bottom – surface)

Dashed lines at 0.5 and 1.0 kg/m³

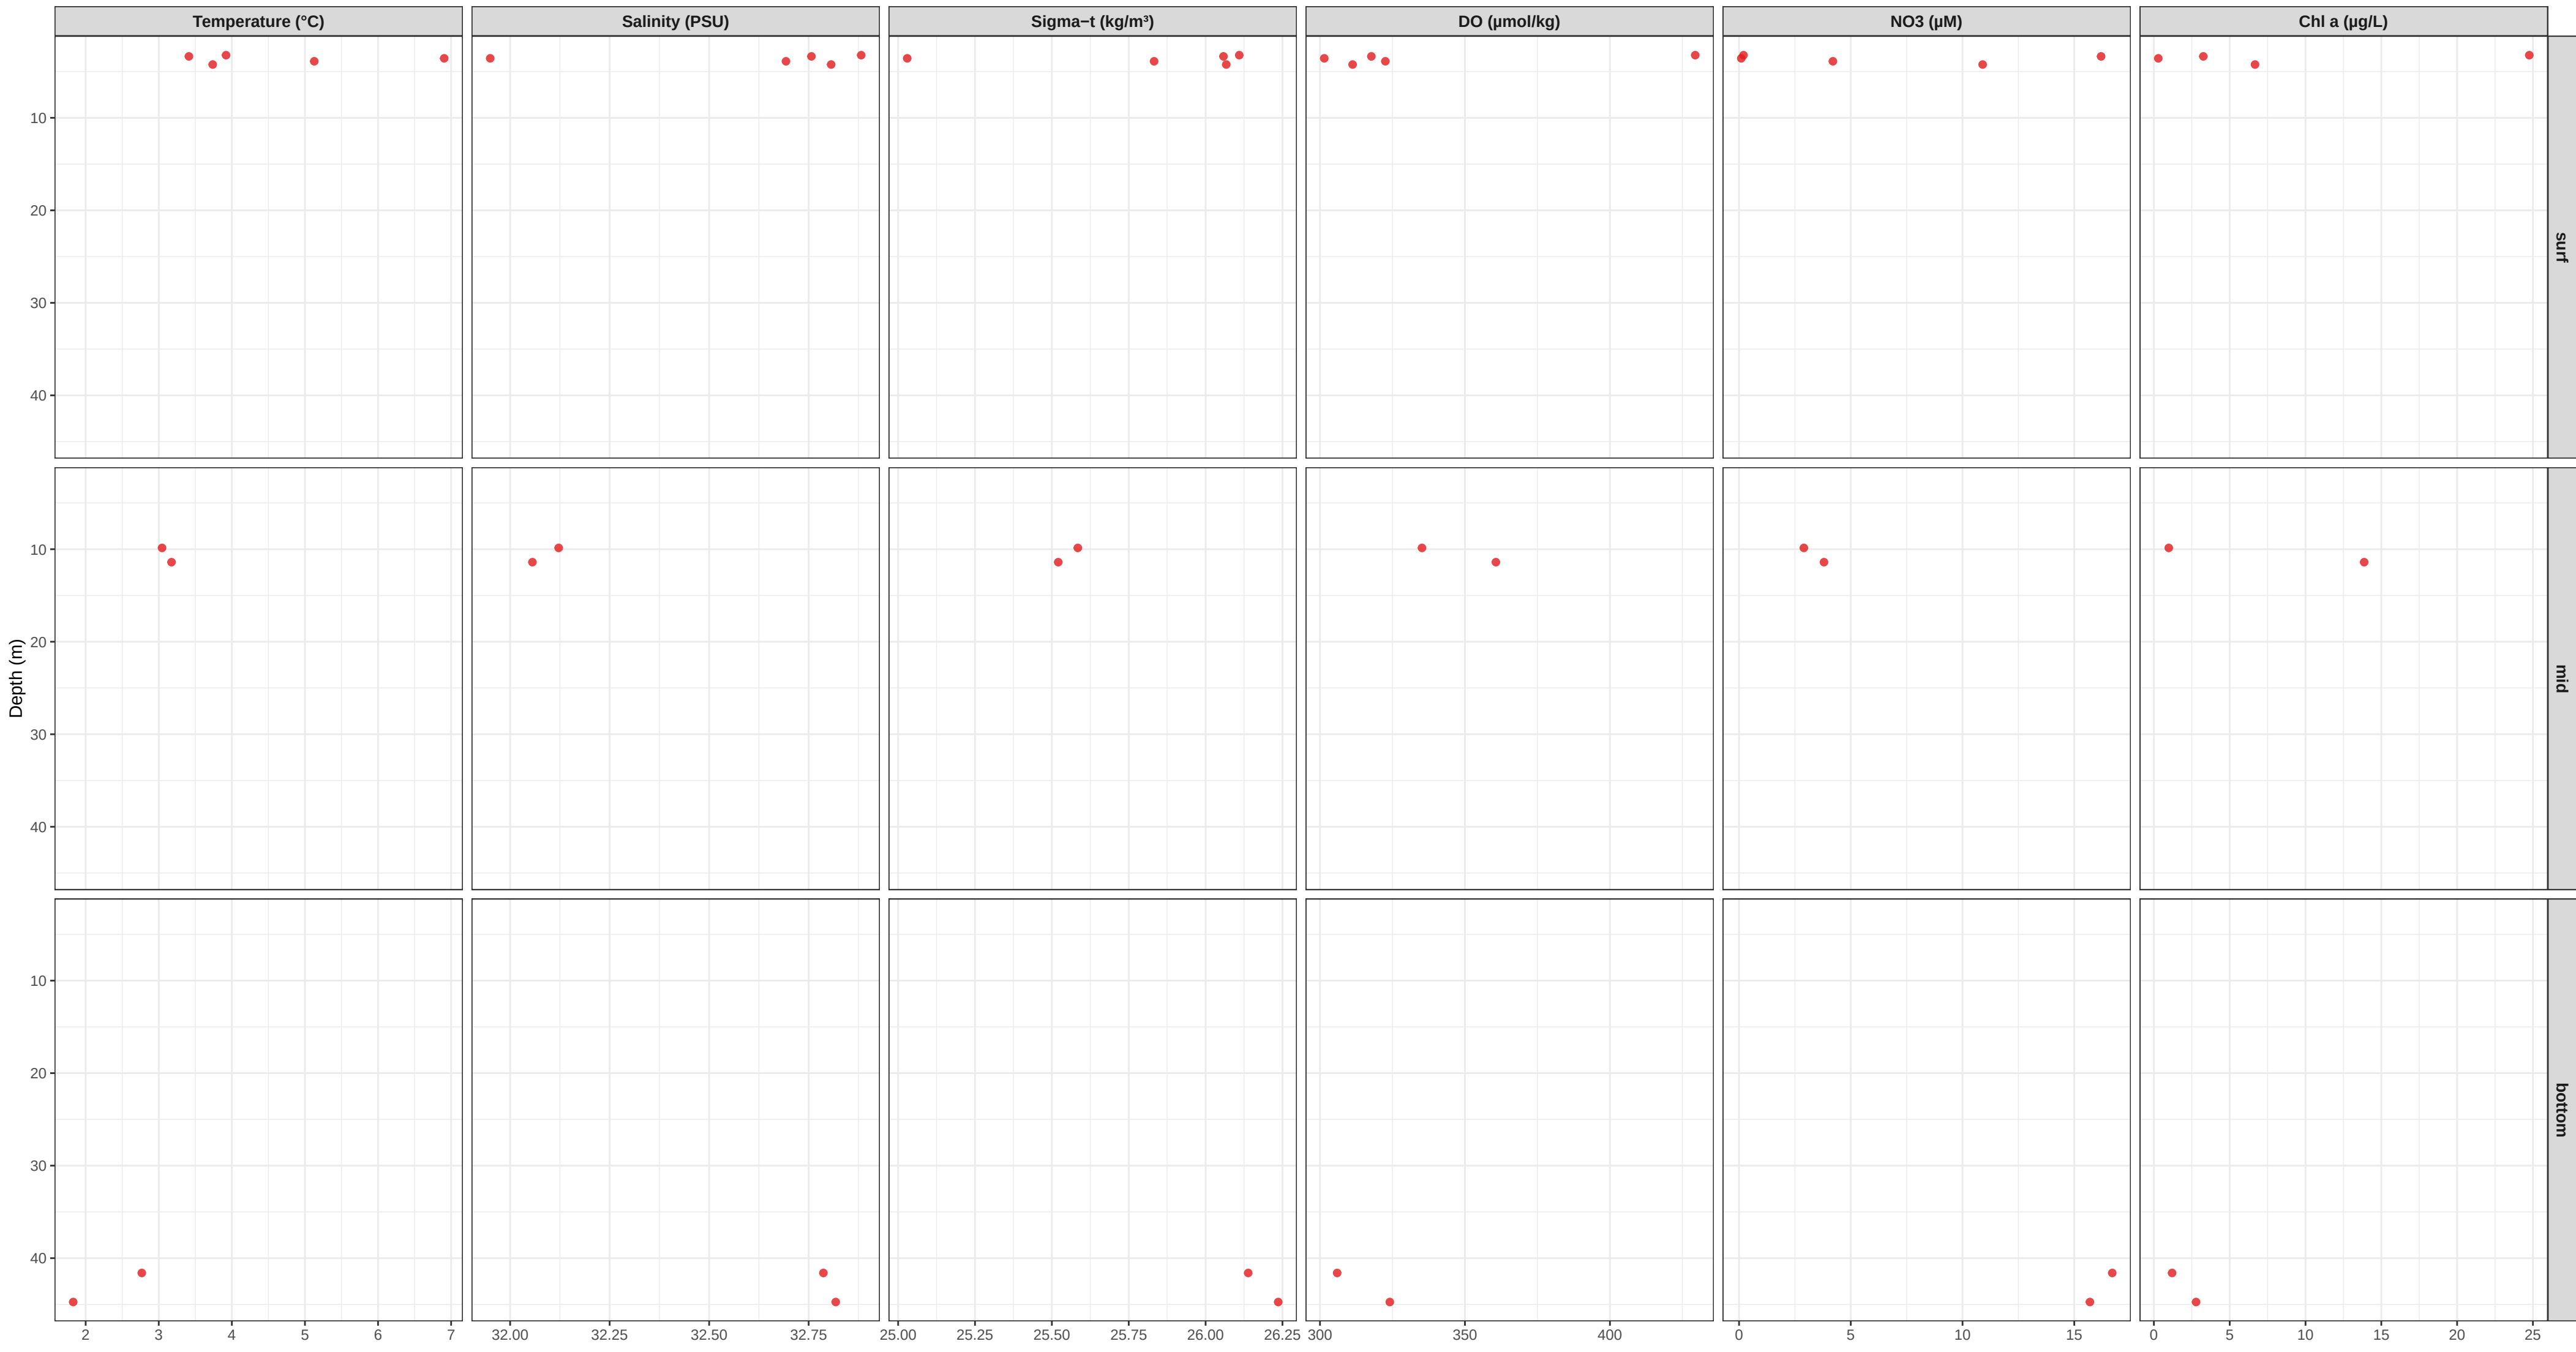

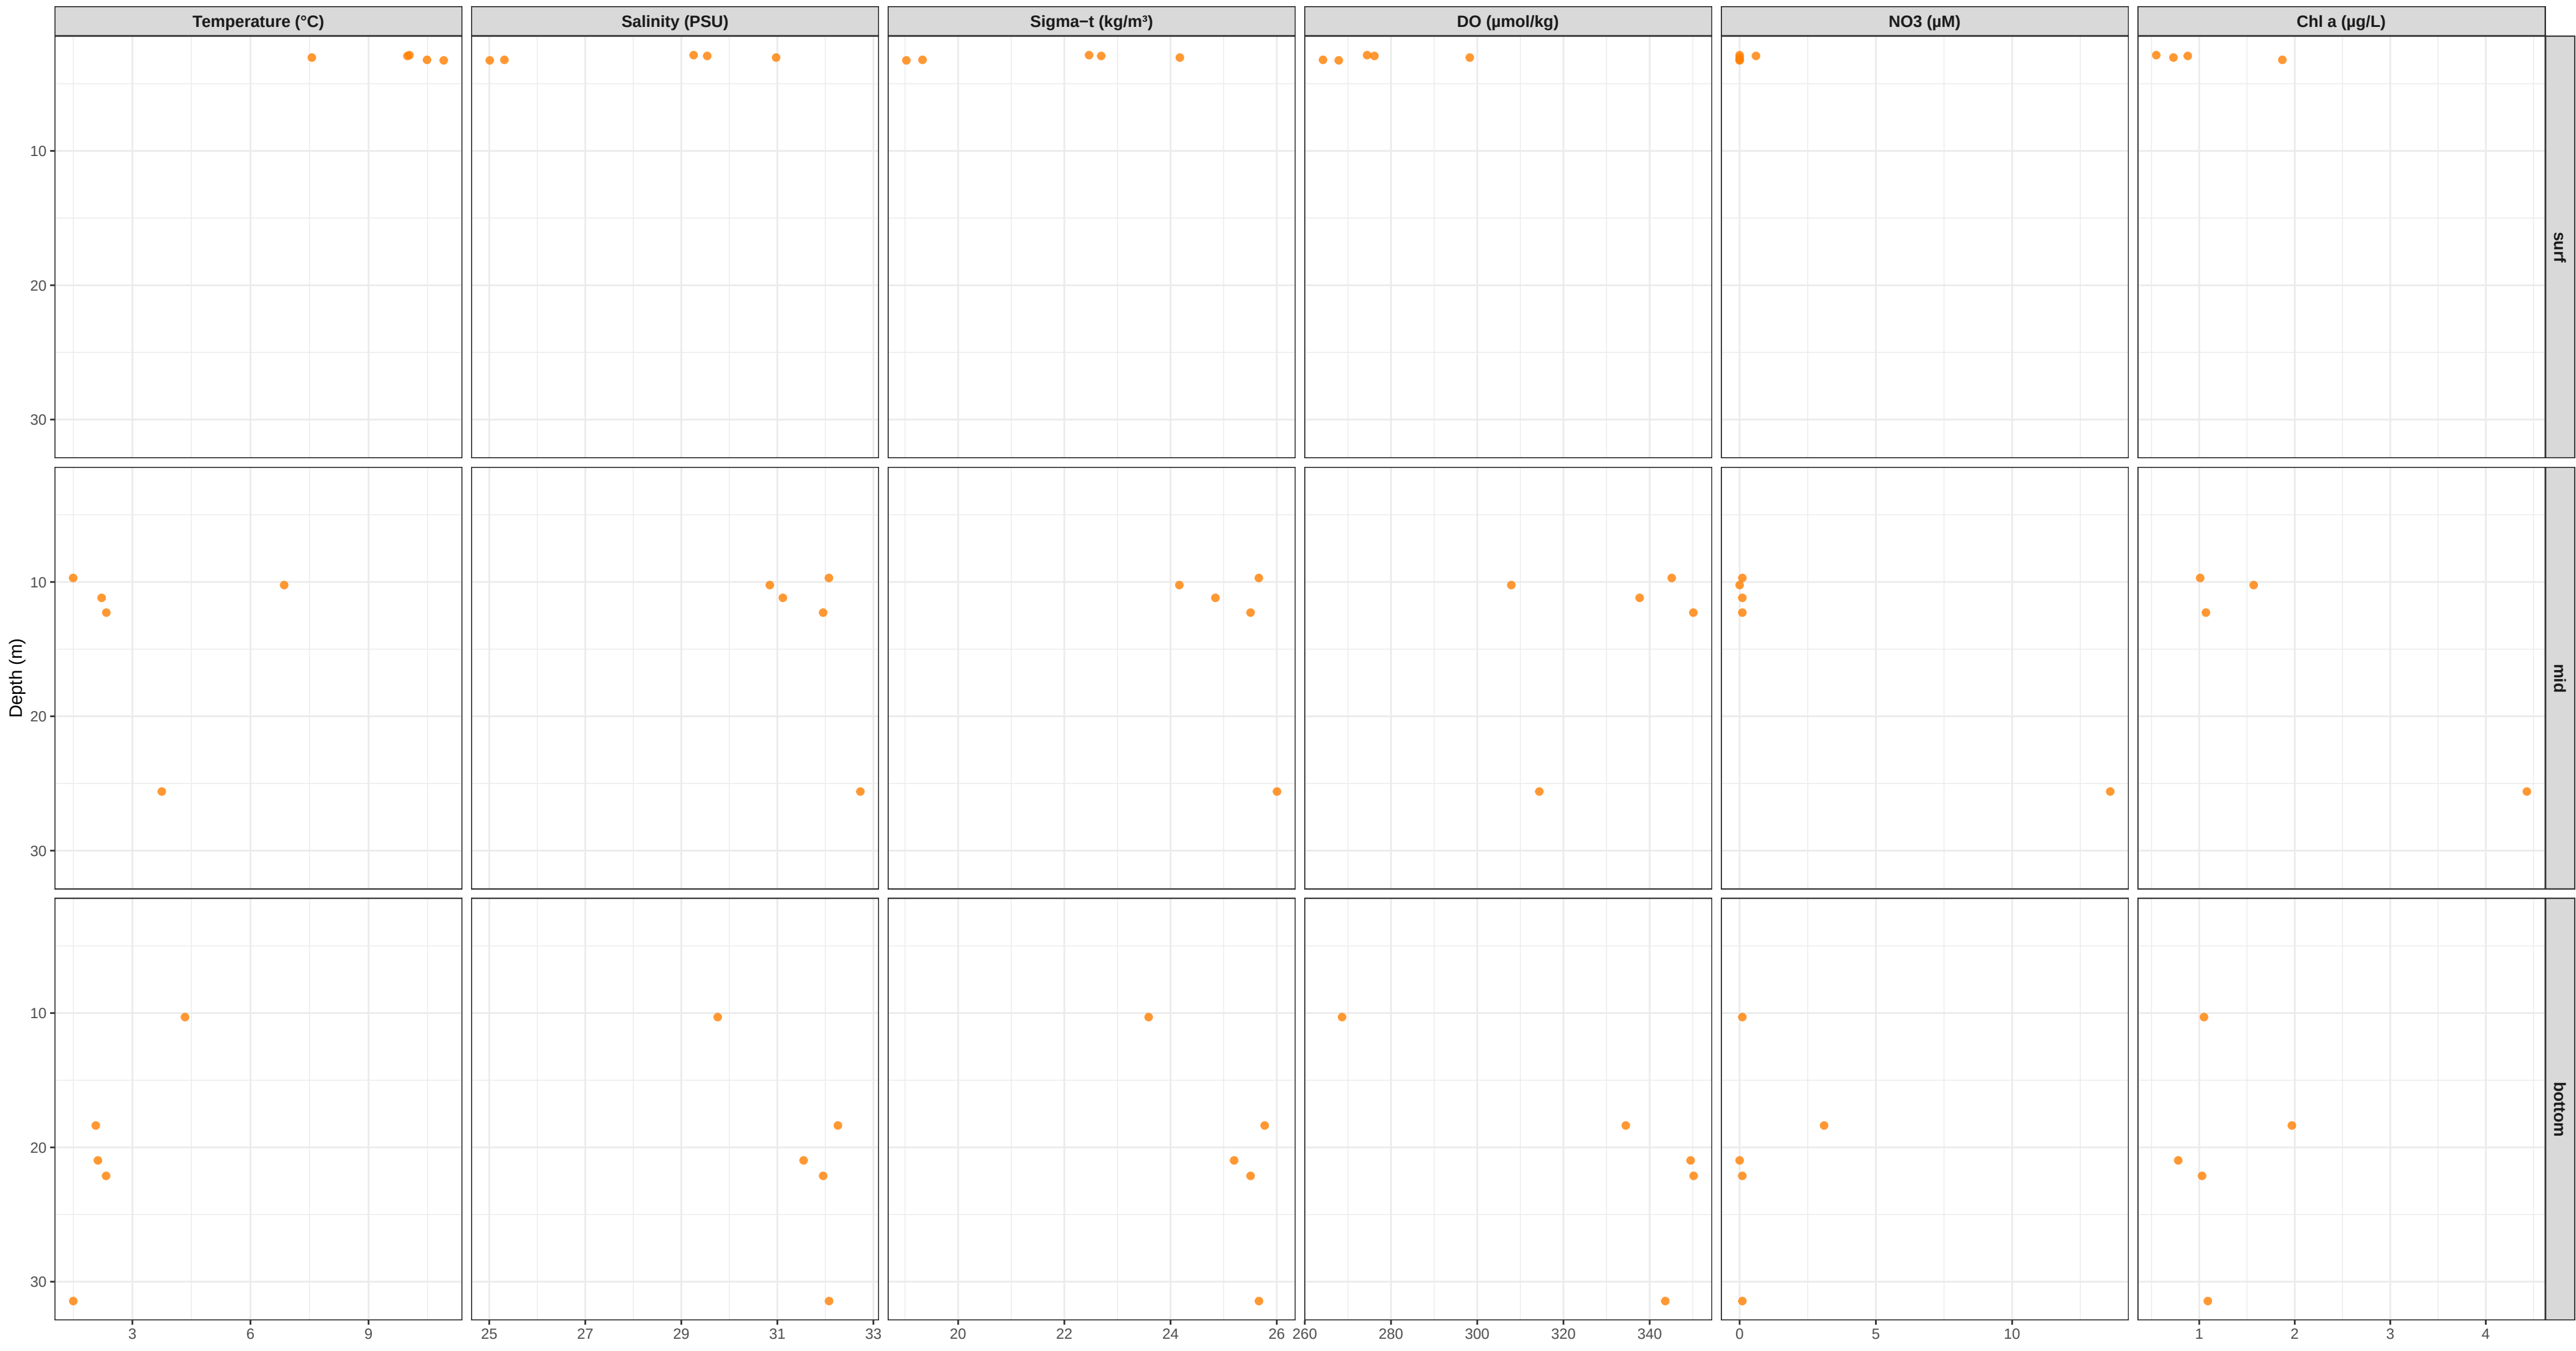

Cluster A1 – vertical profiles by depth-type

n = 9 samples

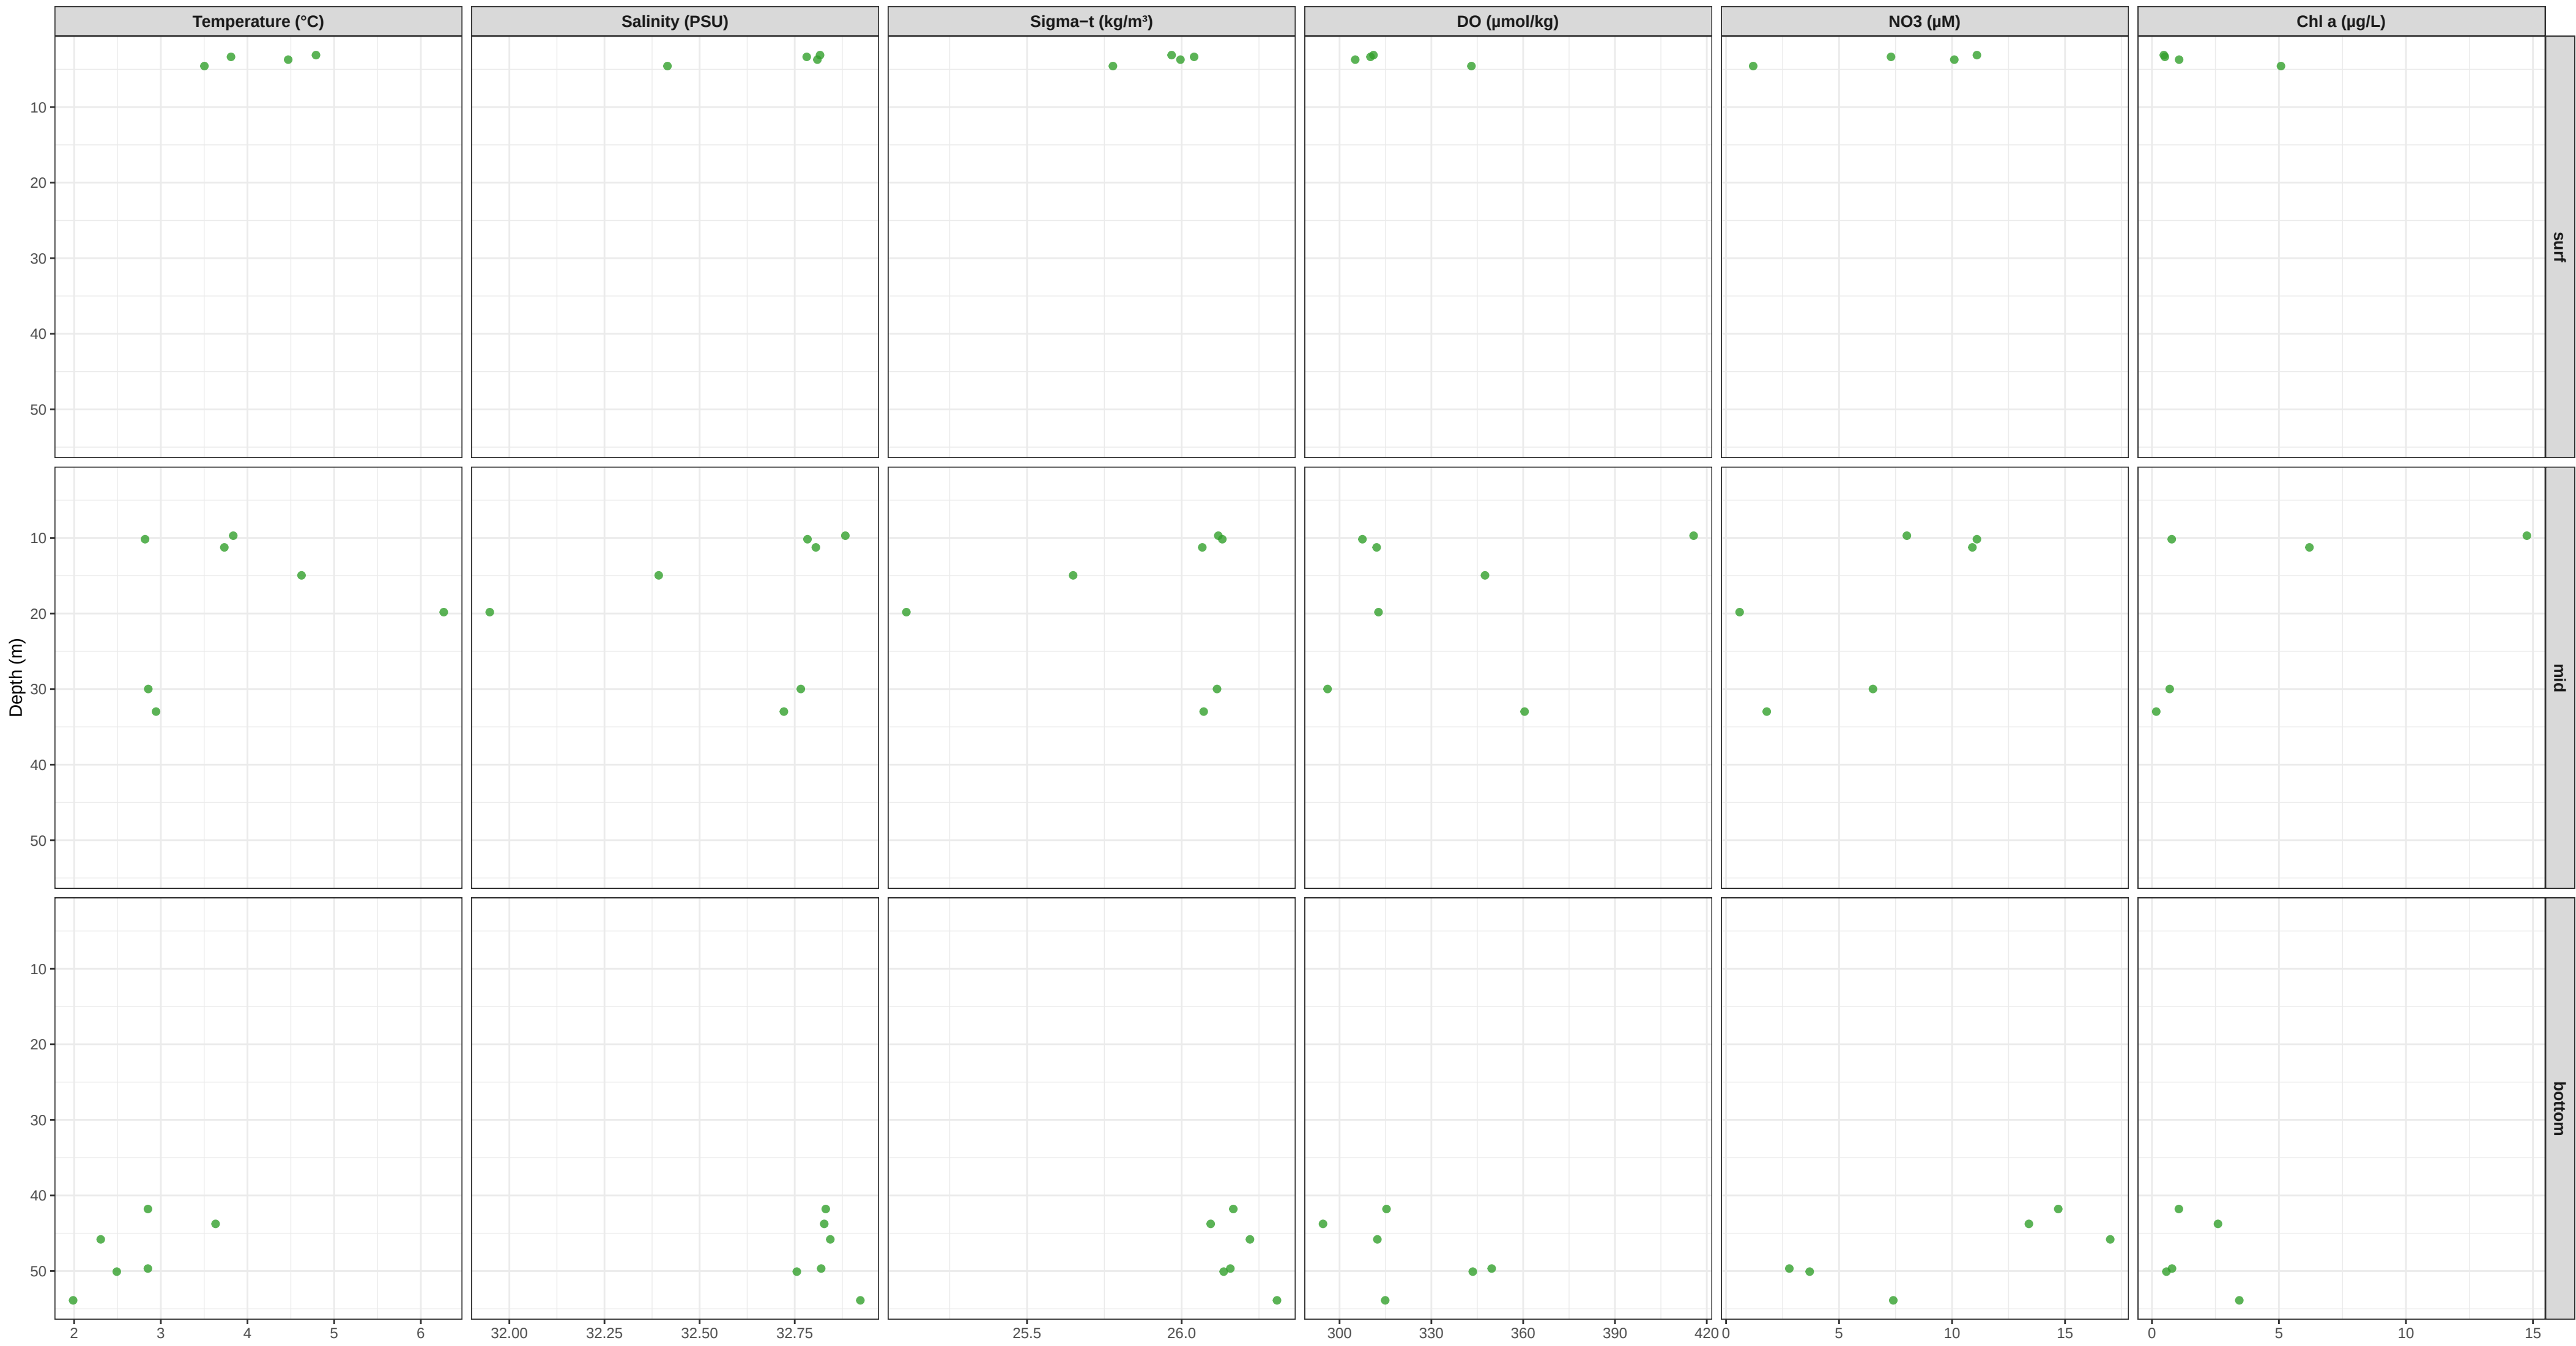

Cluster A2 – vertical profiles by depth-type

n = 15 samples

Cluster B1 – vertical profiles by depth-type

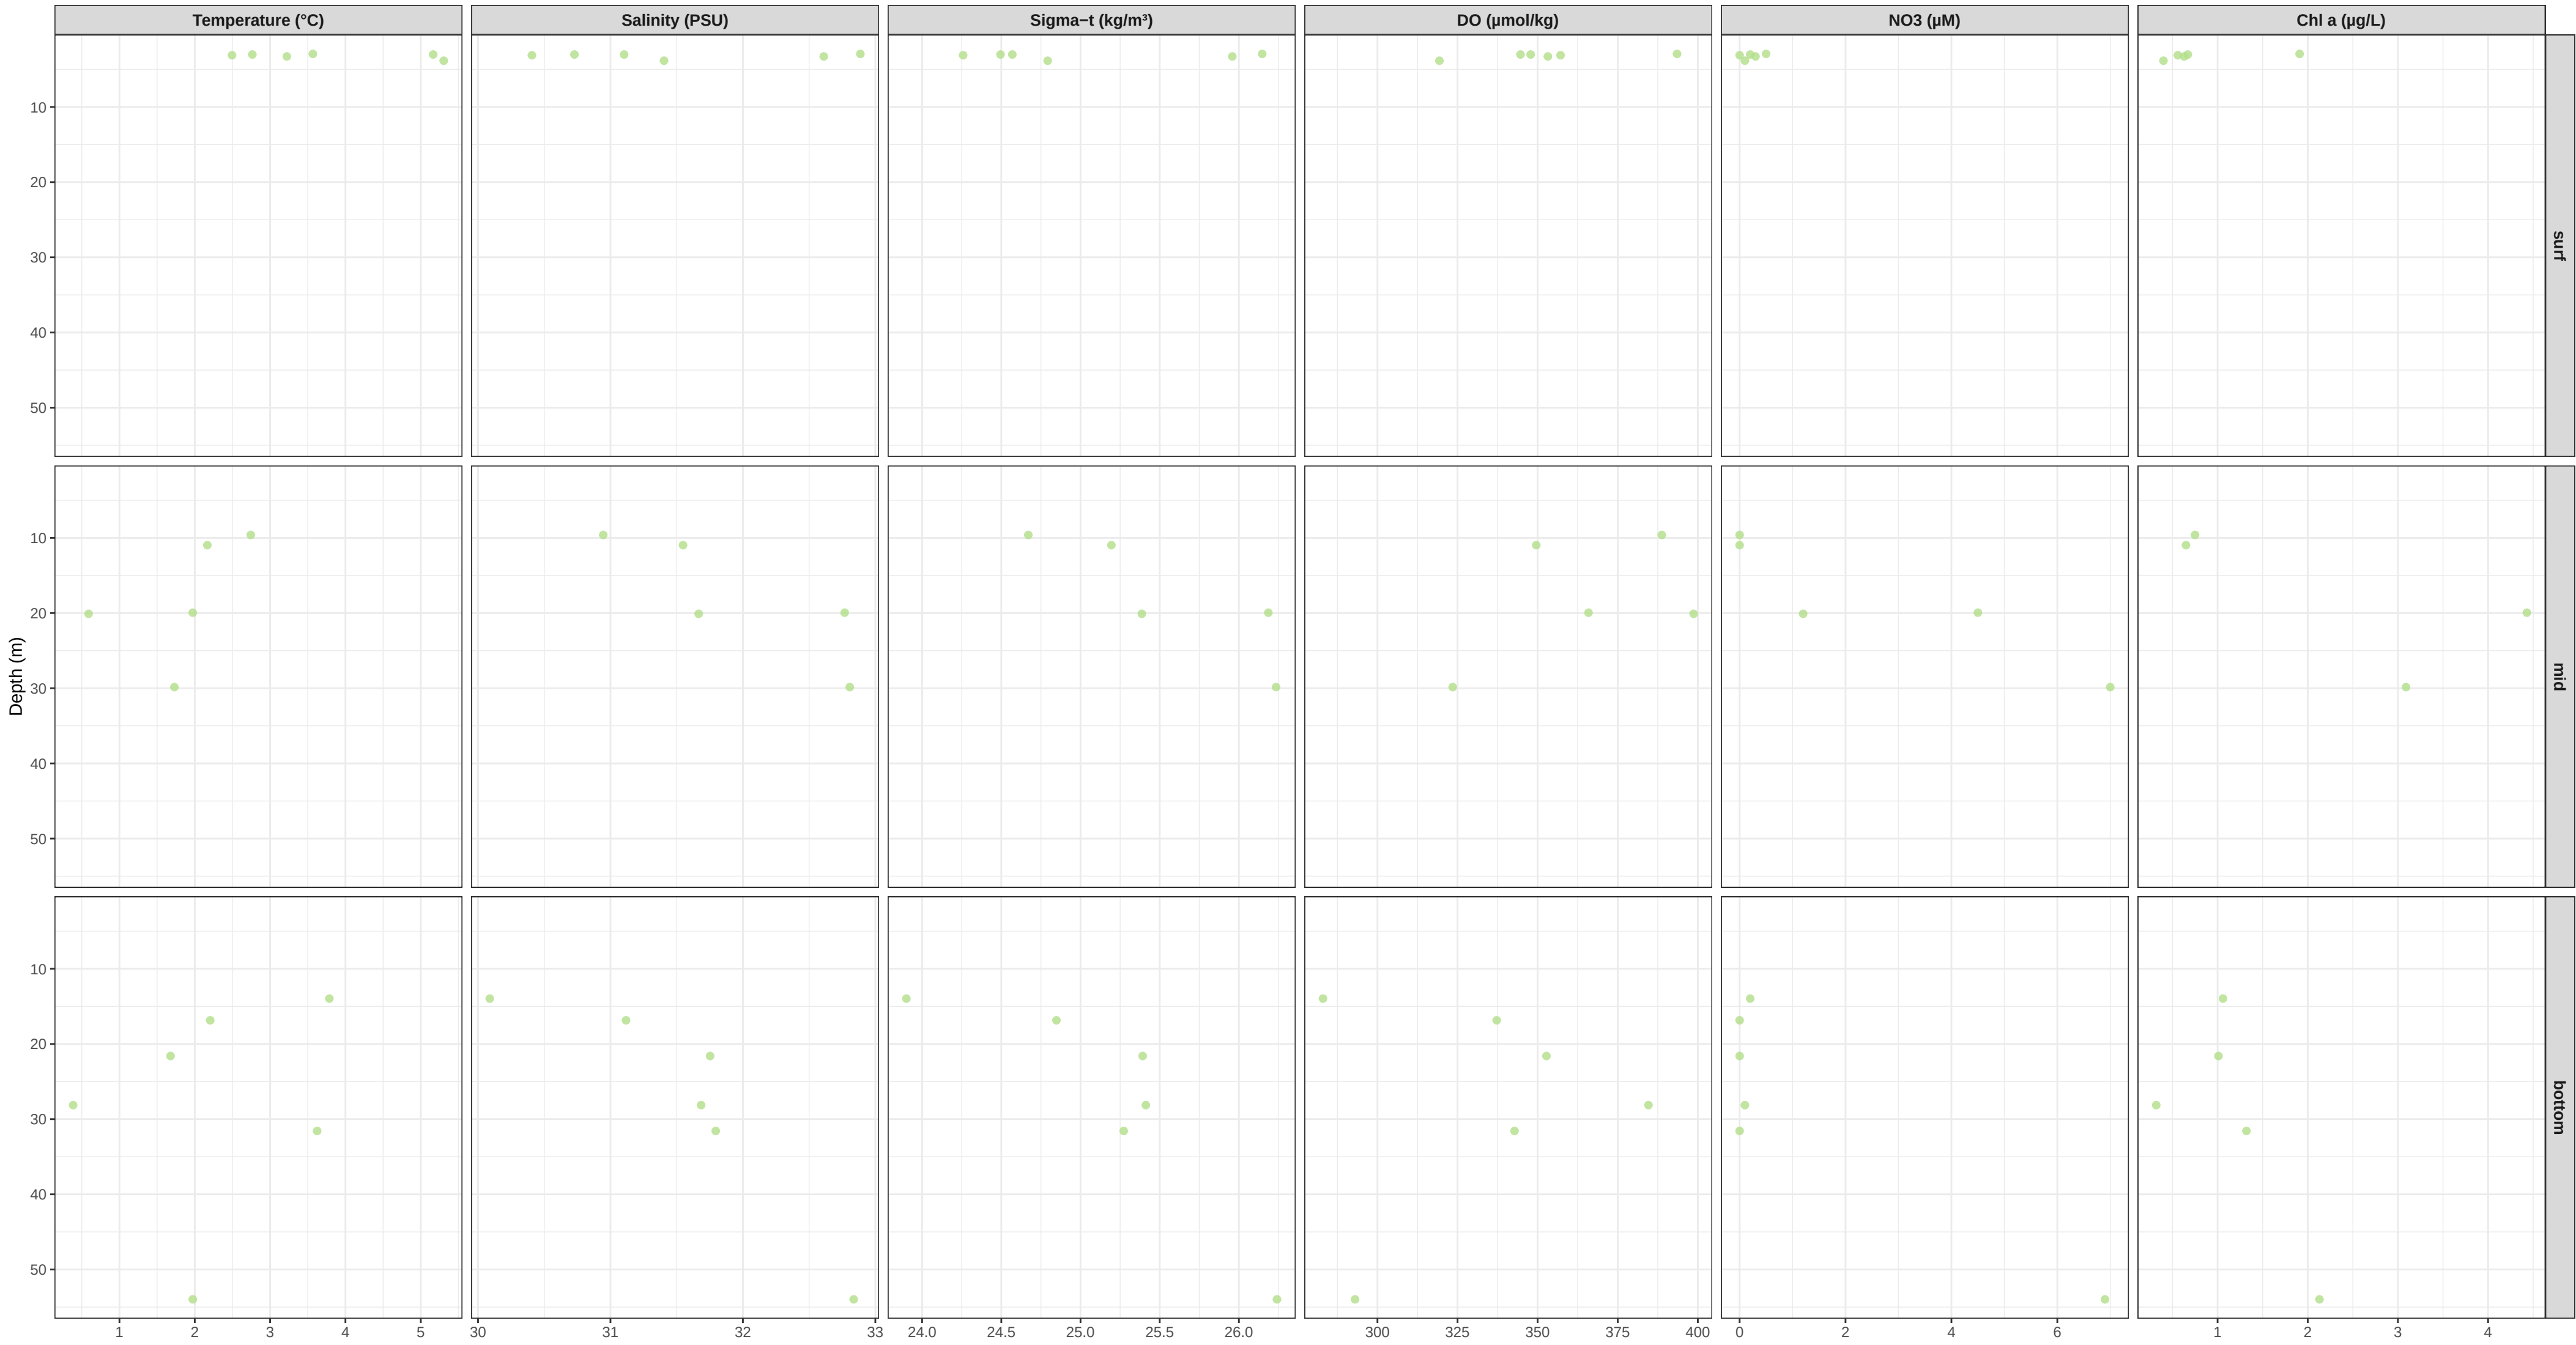

n = 17 samples

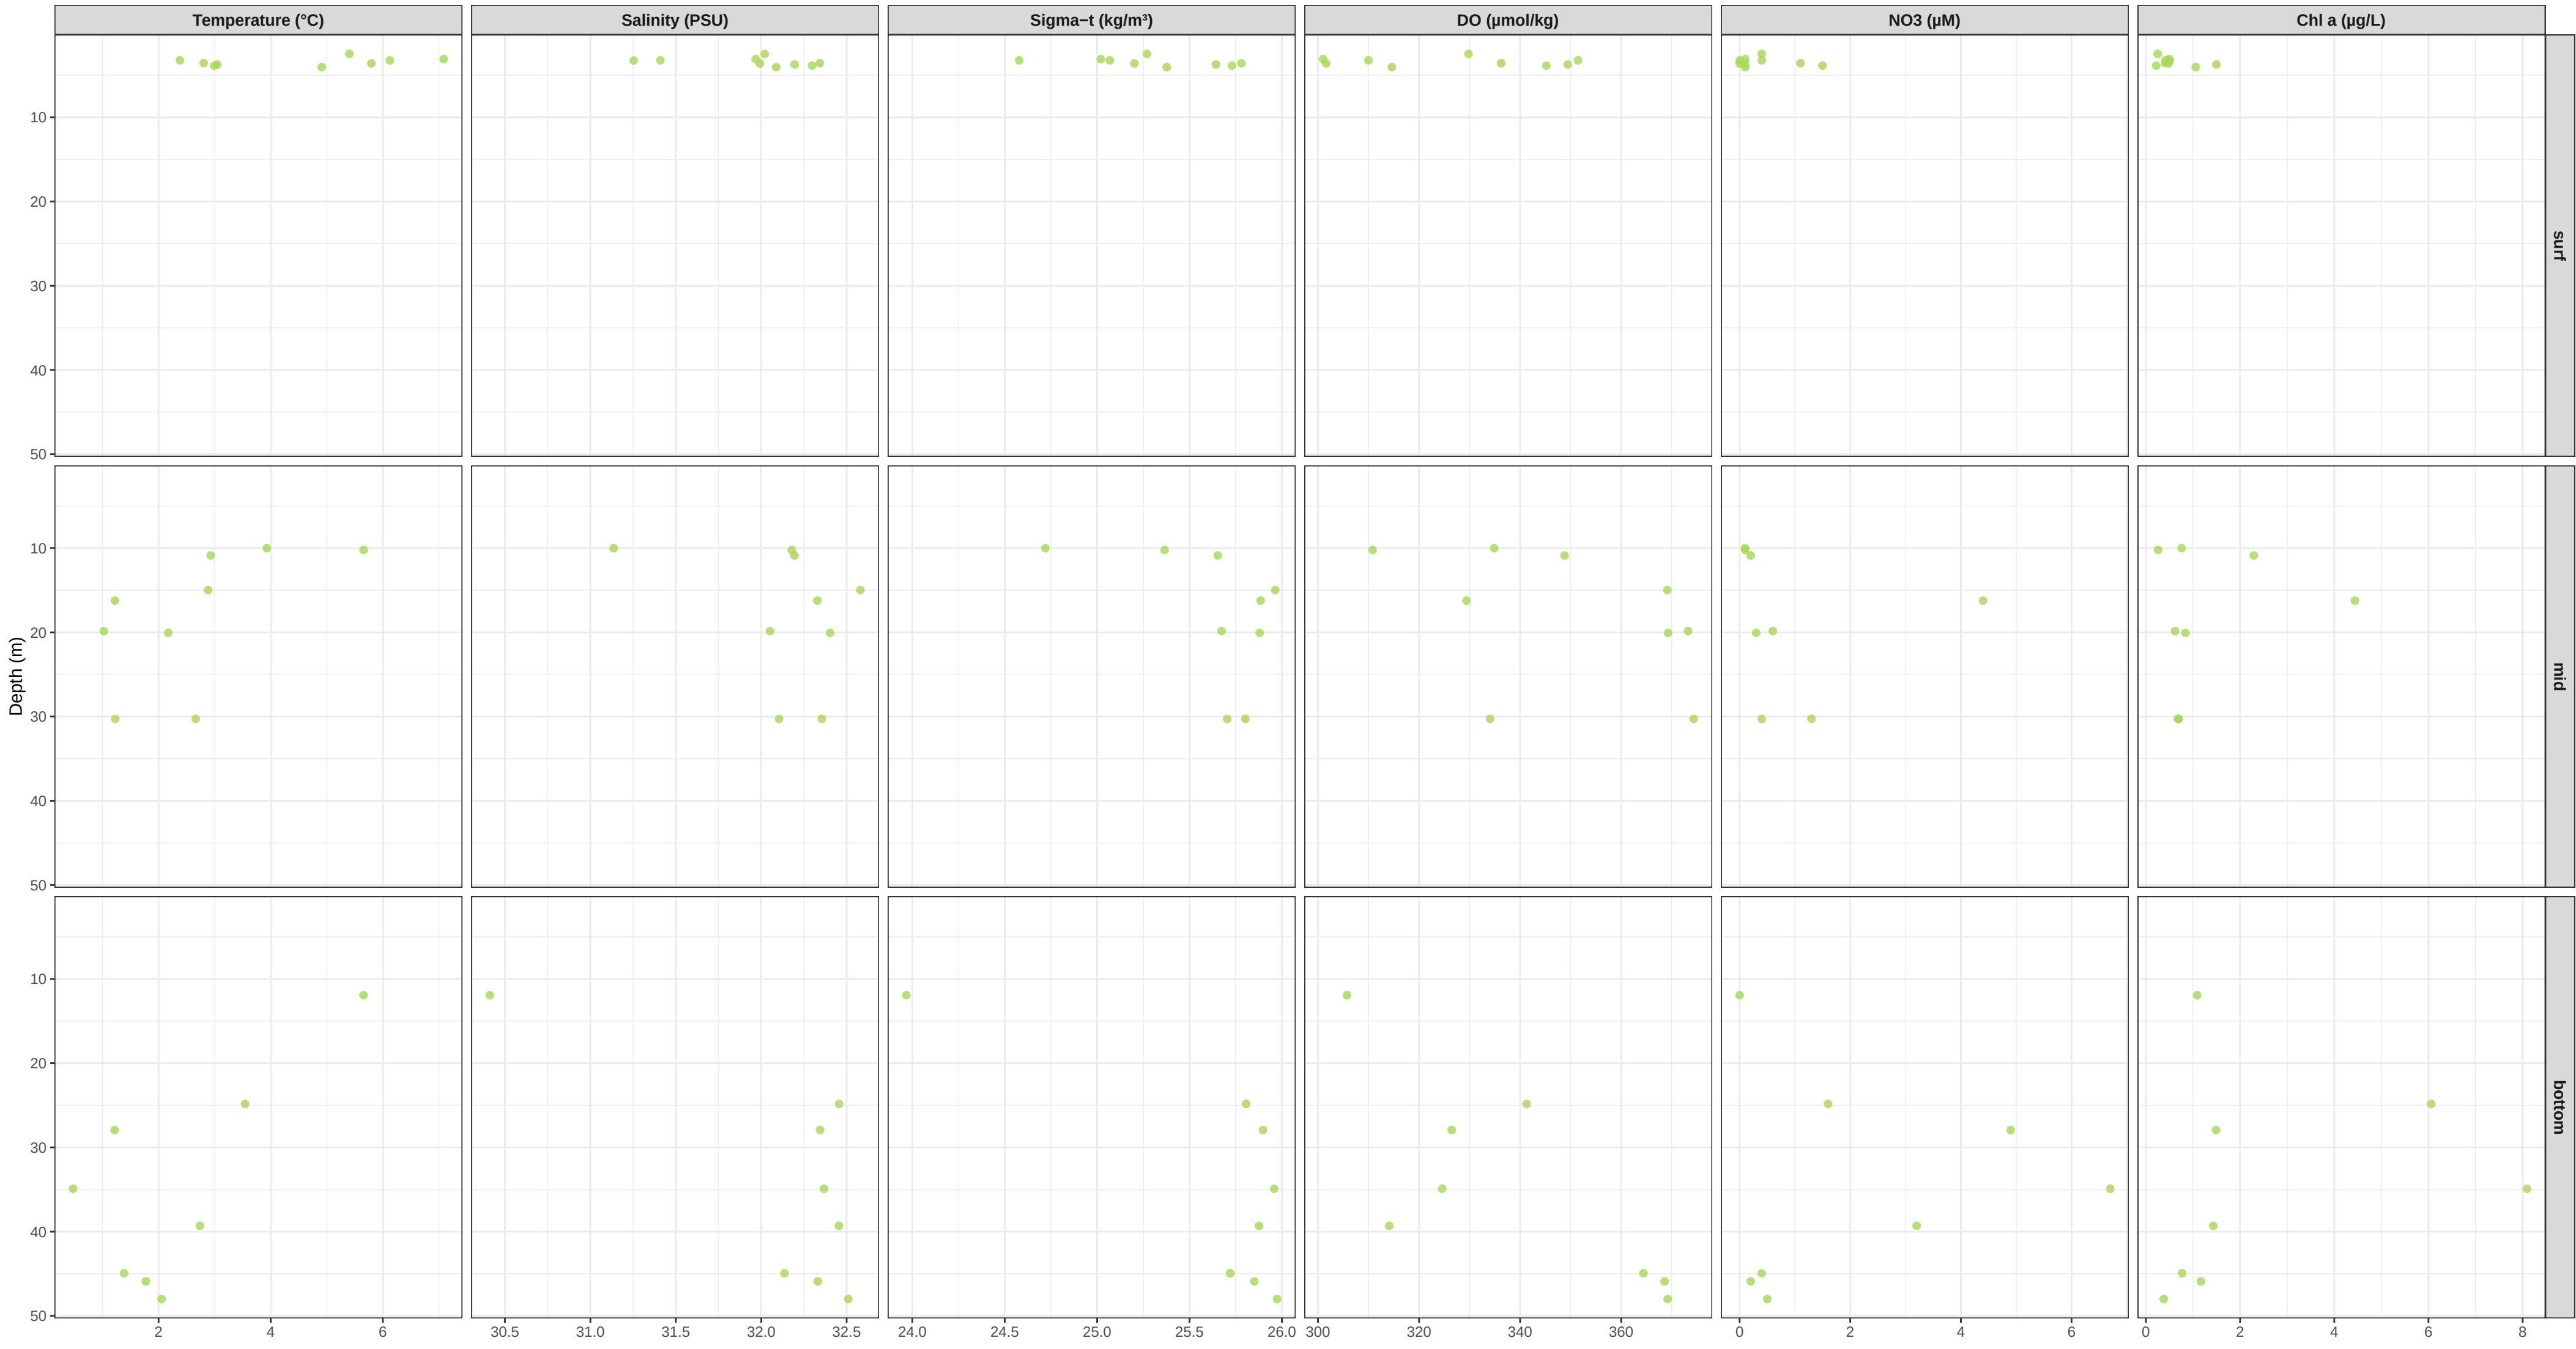

Cluster B2a – vertical profiles by depth-type

n = 17 samples

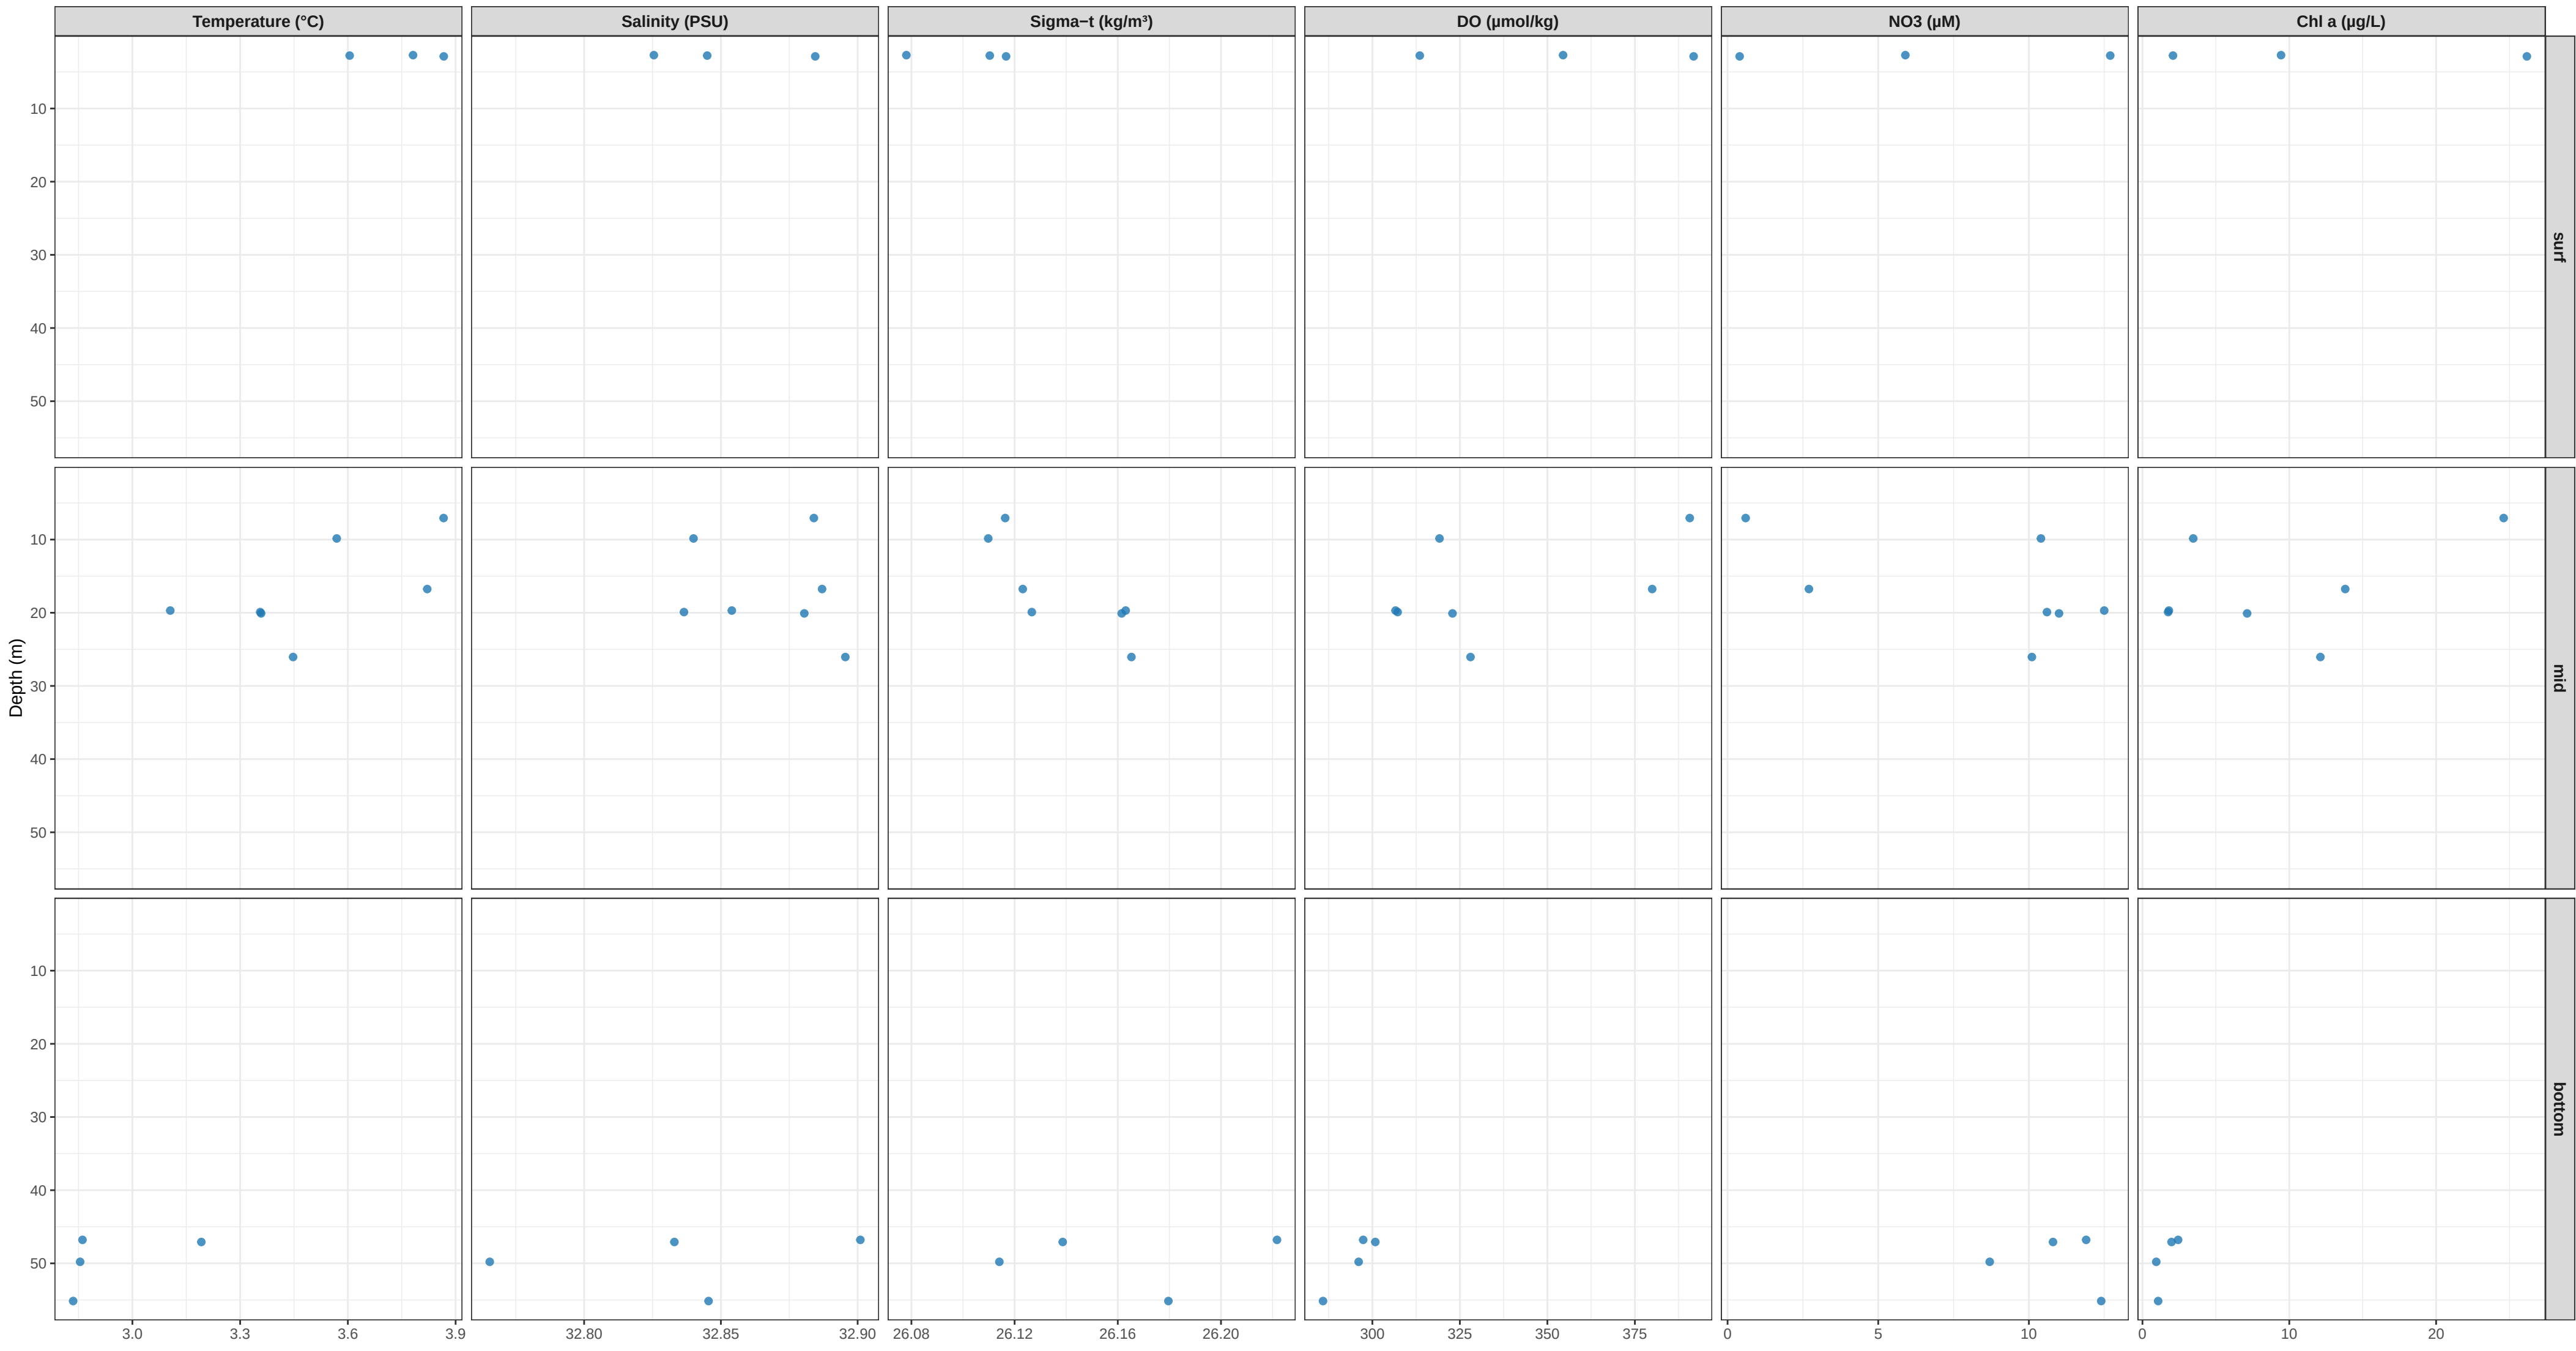

Cluster B2b – vertical profiles by depth-type

n = 26 samples

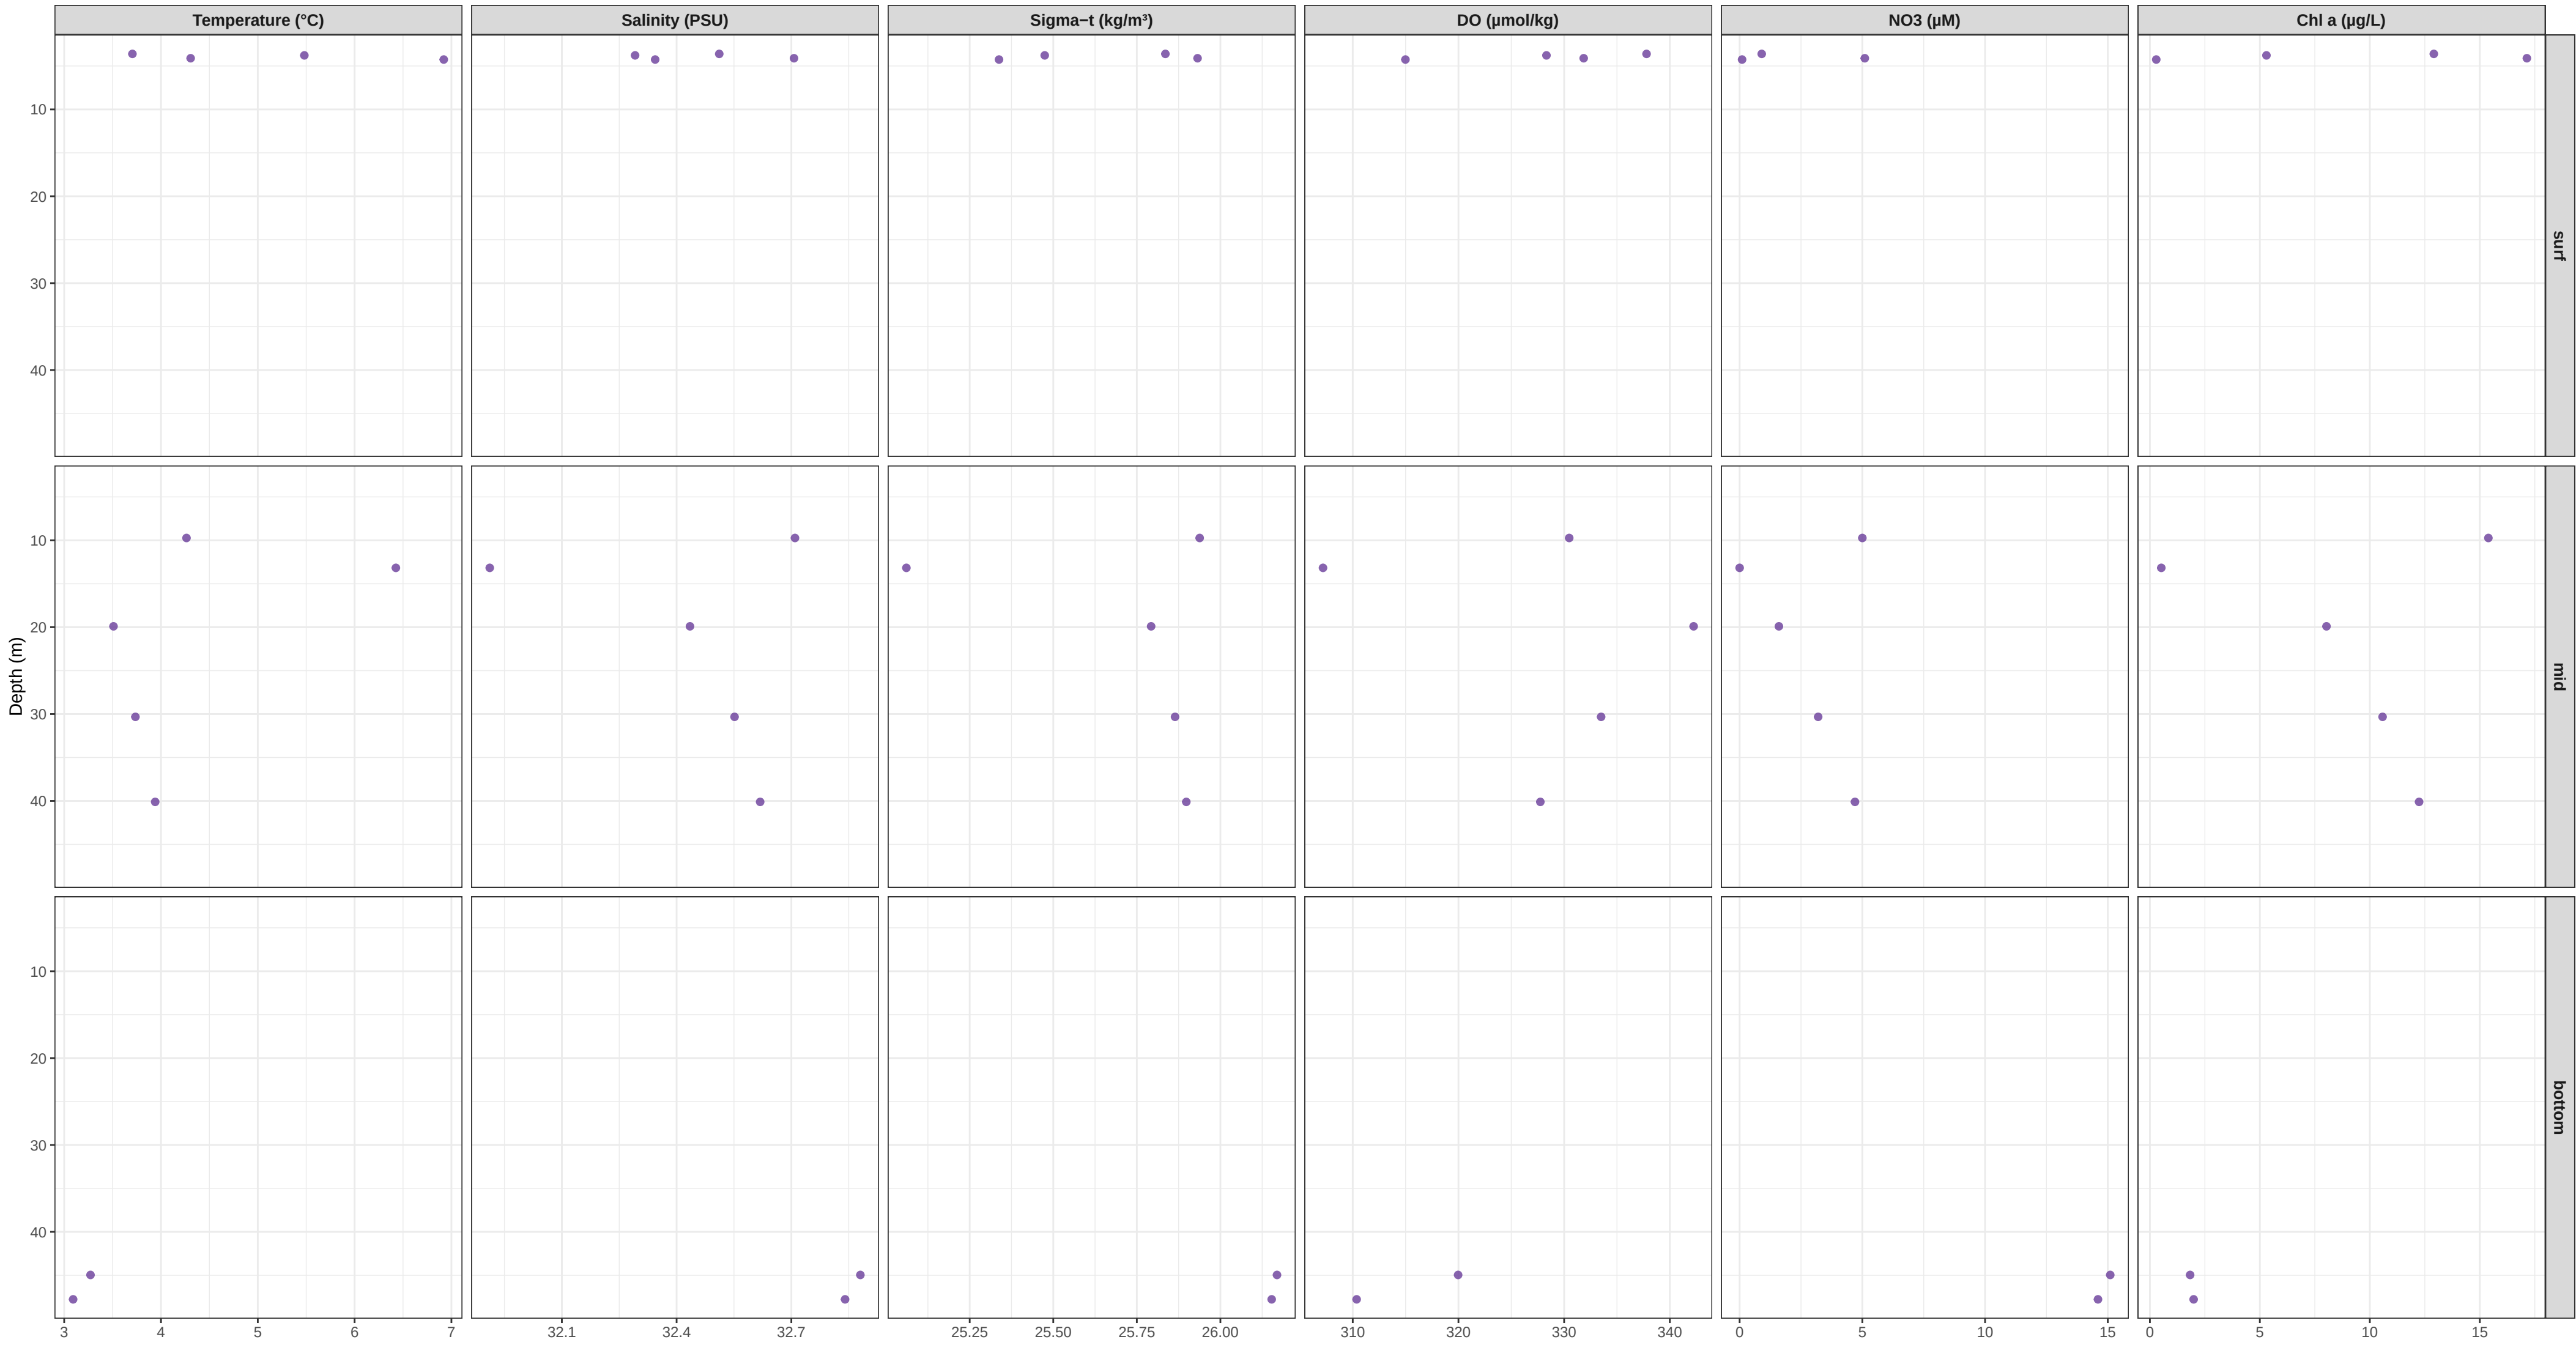

Cluster C1a – vertical profiles by depth-type

n = 14 samples

Cluster C1b1 – vertical profiles by depth–type

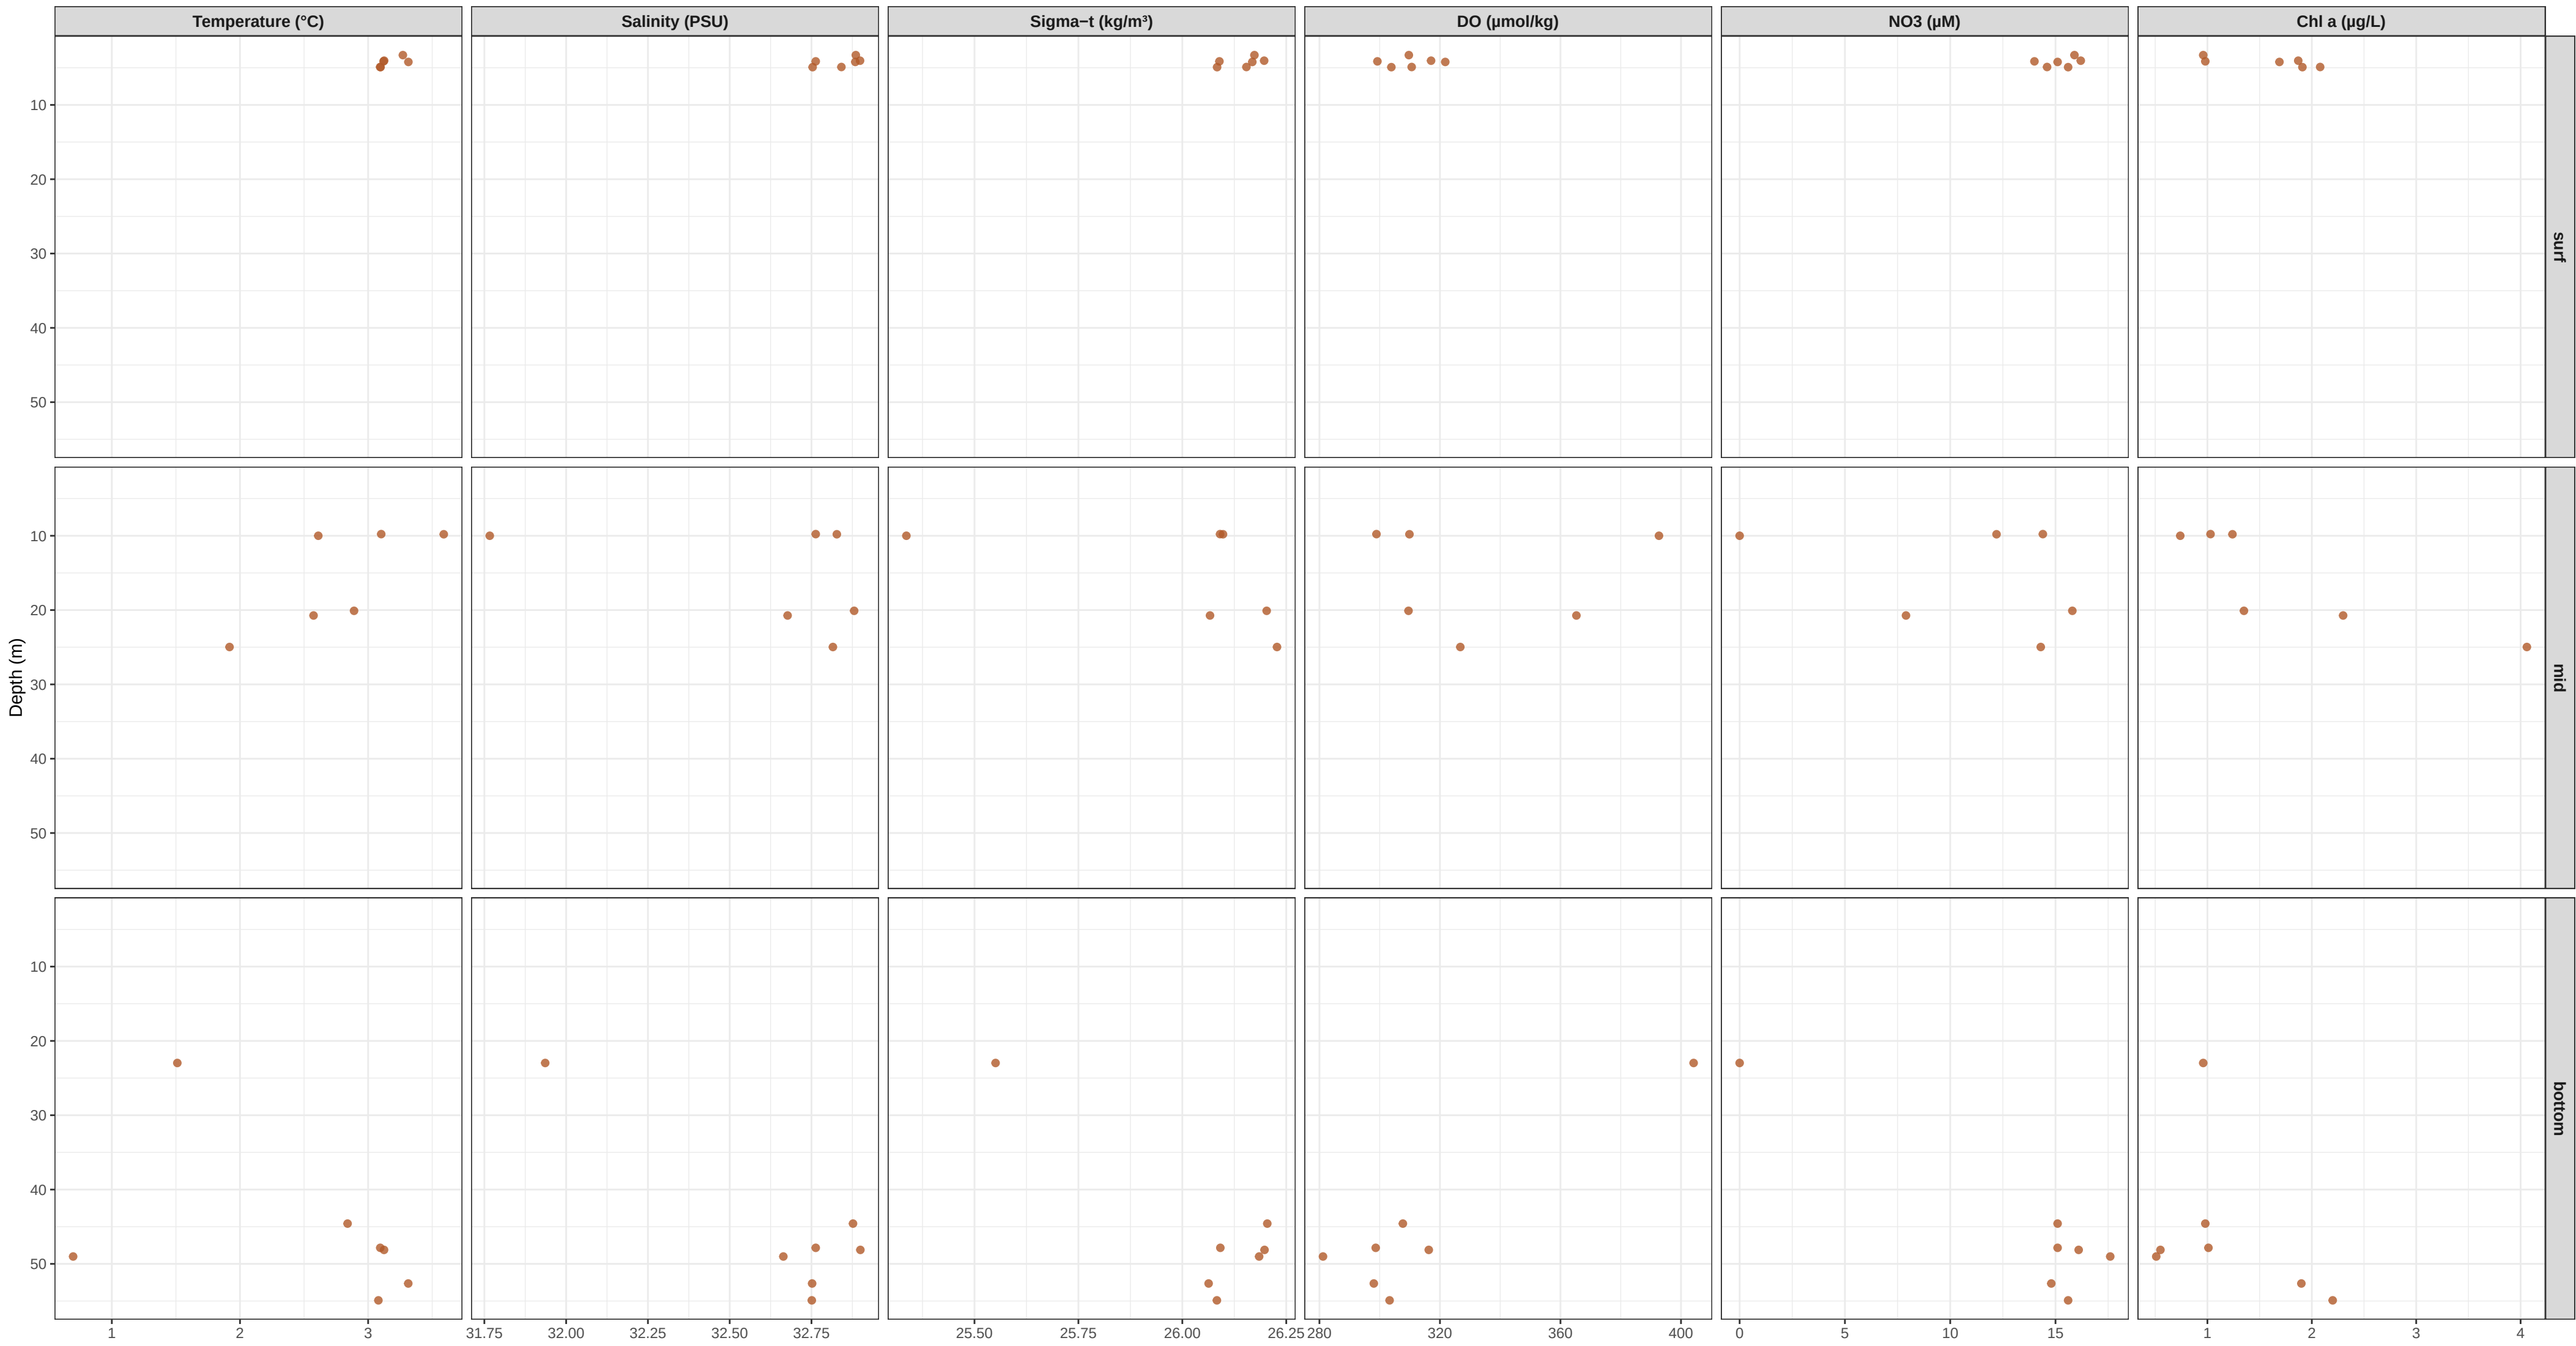

n = 11 samples

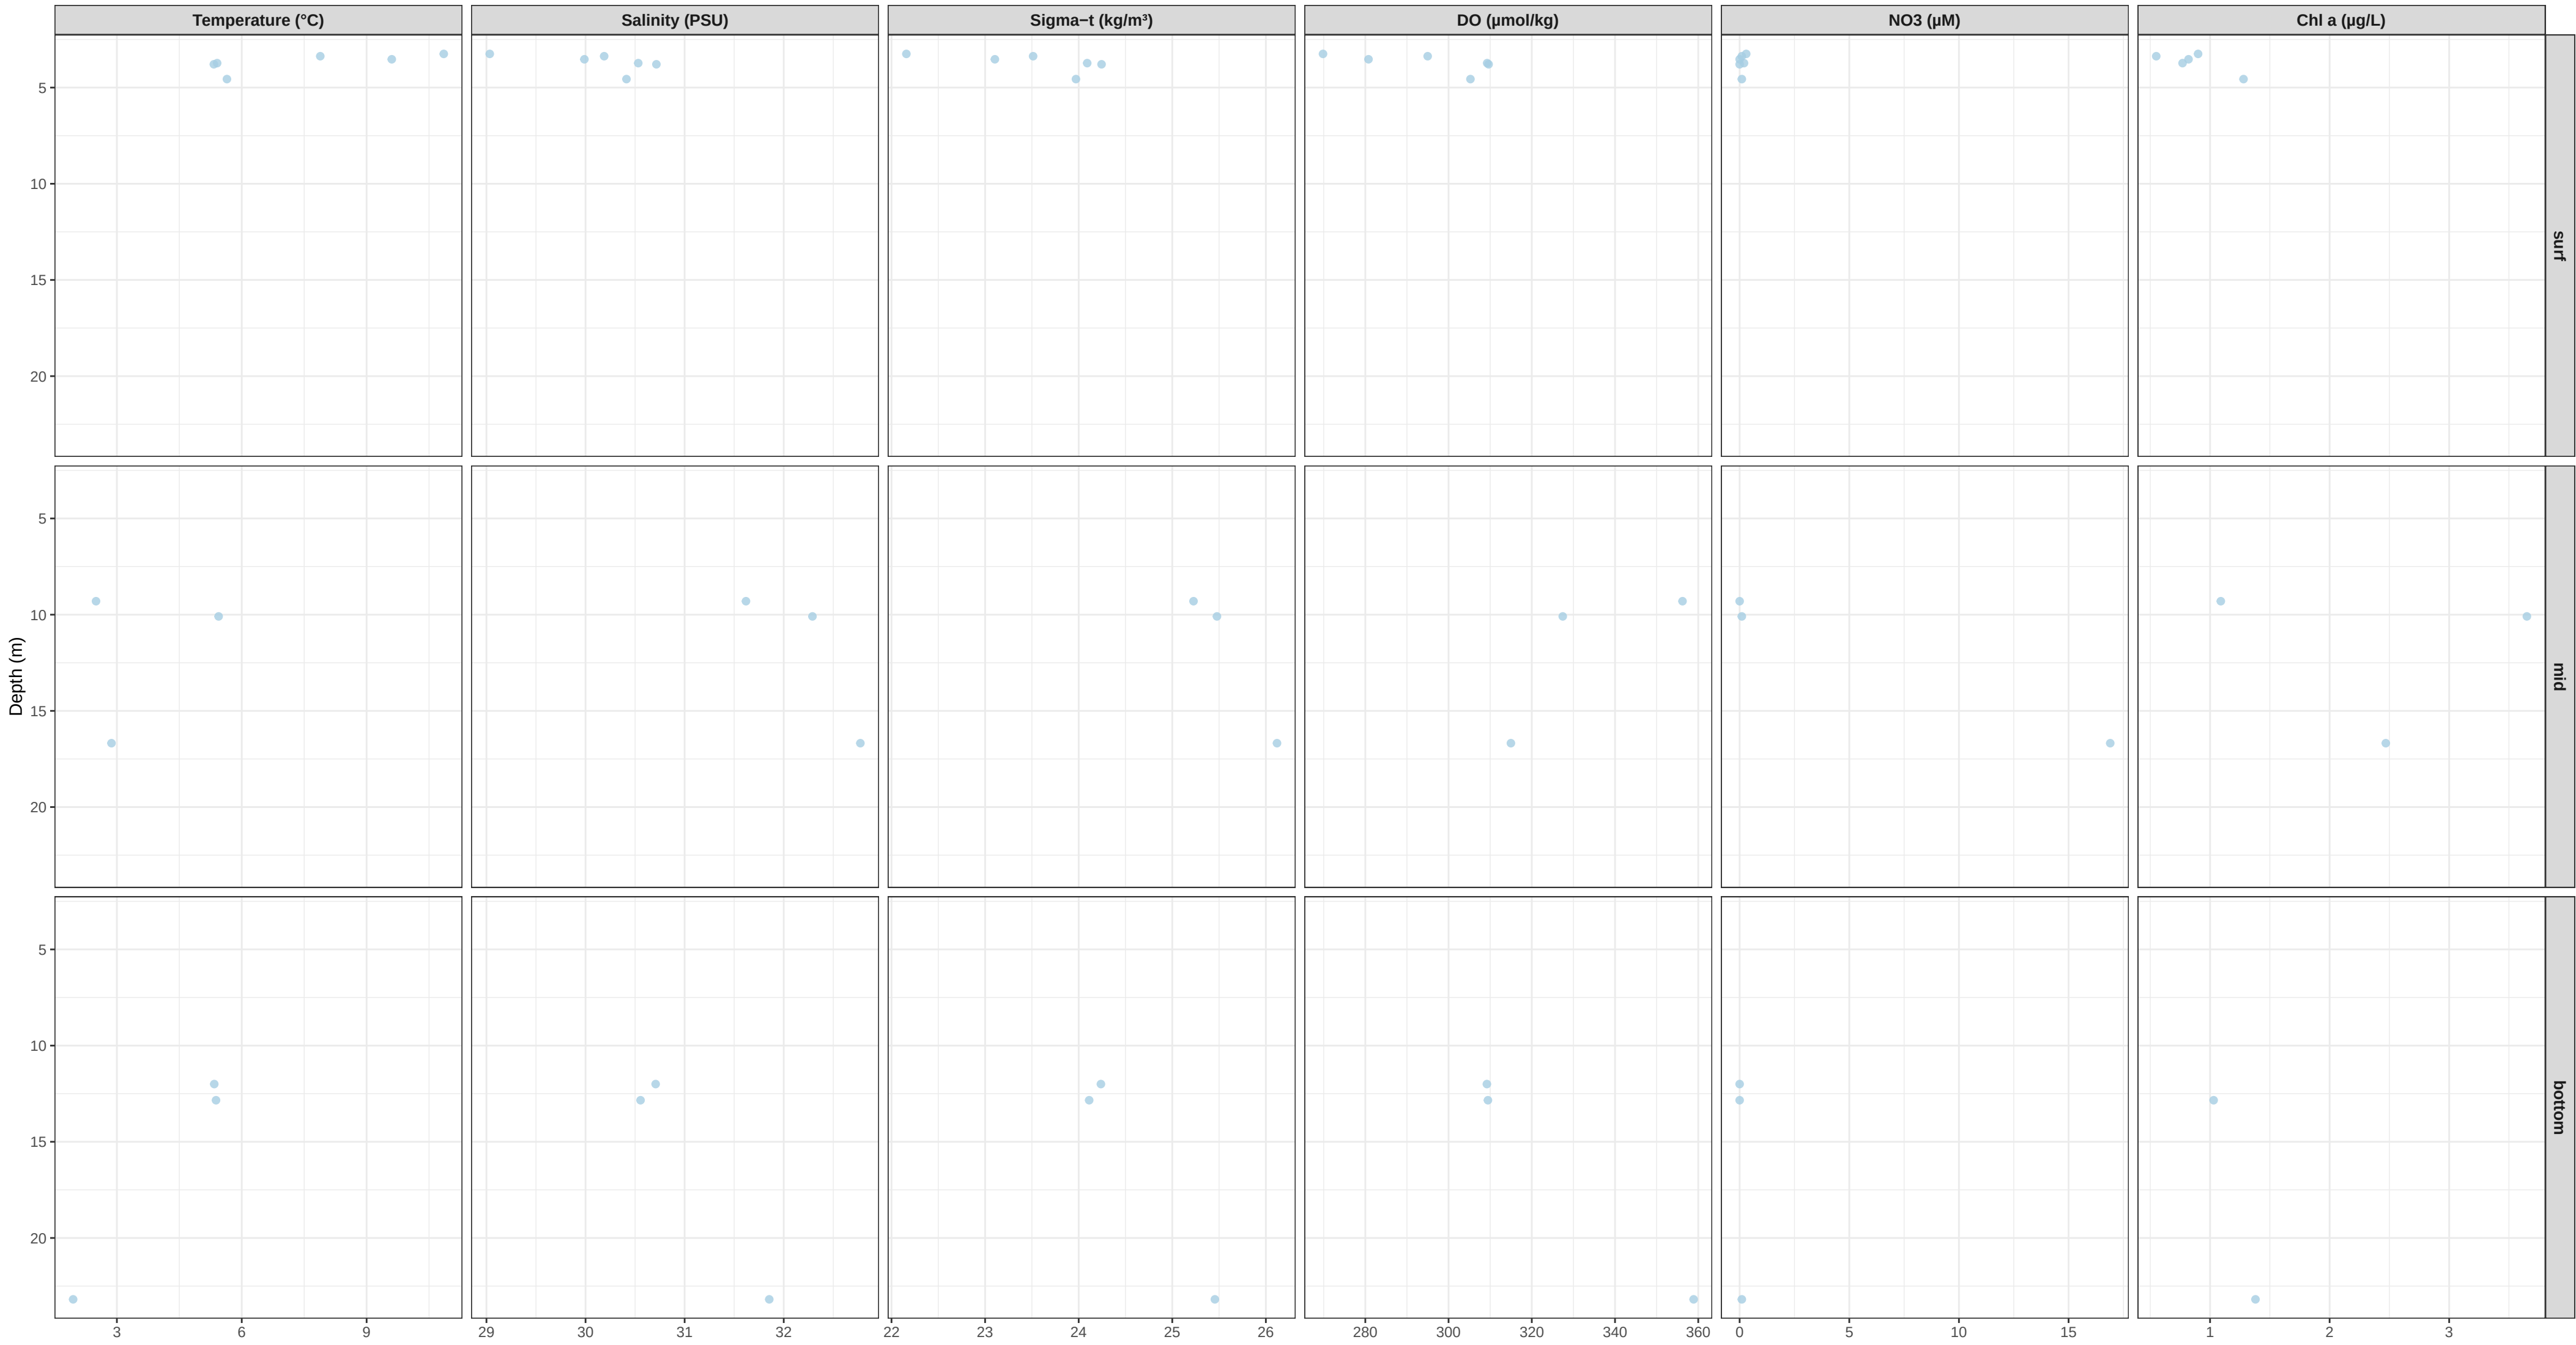

Cluster C1b2 – vertical profiles by depth–type

n = 19 samples

Cluster C2a – vertical profiles by depth-type

n = 12 samples

Cluster C2b1 – vertical profiles by depth-type

n = 12 samples

Cluster C2b2 – vertical profiles by depth-type

n = 29 samples
